前言

教师是确保英语课程有效实施的关键要素。教学参考资料是教师使用教材的重要辅助和参考,承载着教师专业发展和学科育人的重任。本书为《义务教育教科书(五·四学制)英语》学生用书的配套教学参考资料(以下简称“教学参考资料”),依据教育部颁布的《义务教育英语课程标准(2022年版)》对课程实施和教师培训的建议编写,旨在服务教师课堂教学和专业发展。编写组借鉴了外语教育教学理论研究和教材研究的最新成果,基于多轮一线教师试教试用的反馈,结合上海市初中英语教育教学现状,在广泛征求一线教师需求和意见的基础上,确定了教学参考资料的目标定位、编写原则和体例框架。

一、教学参考资料的编制目标和原则

教学参考资料遵循“基于标准、理论驱动、有效支撑”的编写思路,以助力教师“明确目标、理解课程、优化实践、提升素养”为总体编制目标,帮助教师准确把握教材设计理念和内容,熟悉教材编排特点,接触并更新教师的语言观、学习观、文化观、教育观等,促进教师改进已有教学方法,进一步将理念转变为切实有效的教学实践,发挥教学参考资料教学相长的功能,从而全面促成学生核心素养的形成与发展。

教学参考资料编写遵循以下原则:

1. 全面落实党和国家对教材建设的要求,为新课程、新教材落地搭建脚手架;
2. 立足教学实际,传承课改教研经验,引导教师开展课堂教学;
3. 对学生用书进行解读、延伸与拓展,发挥学生用书资源包的作用;
4. 以先进的外语教学理念为指导,提升教师学科理念和素养。

二、学生用书的编写理念和特色

《义务教育教科书(五·四学制)英语》学生用书以实现“培根铸魂、启智增慧”的课程育人目标为总体编制目标,力求体现“国家标准、国际水平、上海特色”。学生用书的编写严格对照课程标准,借鉴二语习得、语言教学、课程设计、心理语言学、认知语言学、教育学、语料库研究等领域的最新理论研究成果,有机融入以学生为中心的课程设计、任务型教学、项目化学习、内容语言融合教学、电子媒介语言教学等理念。

学生用书以主题为主线,倡导基于主题的大单元整体教学,以单元育人目标、主题意义和核心问题为统领教学内容和教学活动的纽带,使学生在完成单元学习后,能够运用所学语言阐释并表达对单元主题的认知、态度和价值判断,生成结构化、可迁移的主题价值观。

在板块设计方面,学生用书力求体现新课标理念,根据学生的认知特点和学习规律,将任务链、情境场景与单元主题下的子话题合理嵌套,确保将主题、语篇、语言知识、文化知识、语言技能和学习策略等课程内容六要素有机融入不同板块中。

在学习活动设计方面,学生用书注重加强真实情境创设和问题设计,鼓励和引导学生在真实复杂的情境中利用所学知识解决实际问题,在学科知识和真实生活之间建立连接,将事实、经验、知识和技能联结为整体,开展自主、合作、探究式学习,引导学习方式和教学方式变革。

同时,活动设计强调科学性、关联性、指导性和逻辑性。学生用书通过循序渐进的学习活动,形成任务链,注重为学生提供学习方法的指导,培养学生良好的学习习惯和有效的学习策略,帮助学生举一反三、触类旁通,在语言运用中发展核心素养,同时为学生自主学习、终身学习奠定基础,也为教师自主选择、因材施教、改进教学实践提供空间。

三、学生用书的内容构成和编排方式

学生用书供五·四学制初中学段使用,包含四个年级共八册,每册包含六个(九年级下册为四个)常规单元。六年级上册和七年级上册分别包含一个衔接单元(Starter),帮助学生做好五、六年级以及课程内容级别二、三级水平之间的衔接过渡。

每册包含两个特色拓展单元板块:文化角(Culture corner)和文学角(Literature corner)。

其中,文化角包含两个特色单元:中国文化单元(Exploring China)和世界文化单元(Exploring the world)。中国文化单元聚焦本土文化,以“加深理解与认同,中华文化我来说”为编写理念,帮助学生提升对中华优秀传统文化的理解,提高其用英语介绍中国文化的能 力,坚定文化自信;世界文化单元以世界七大洲文化为主线,涵盖目的语文化和其他世界文化,以“文化万花筒,对比与沟通”为编写理念,突出中国文化与世界文化的相通共融。文化角力求以丰富的材料反映“世界眼中的中国”与“中国眼中的世界”,体现文化的传承、融通与发展。

文学角单元包括三个板块:名著节选(A chapter to start with)、戏剧选段(A scene to act out)和诗歌品读(A poem to savour)。文学角从世界儿童文学名著中节选经典章节、经典对白,从广受青少年儿童喜爱的诗歌作品中选取与分册单元主题相关的篇目,供学生品读,鼓励学生课后开展整本书阅读、拓展阅读、课本剧表演和诗歌诵读,帮助学生感知英语文学语言的魅力。

附录部分包括课文注释(Notes)、语音附录(Sound/Pronunciation file)、词汇学习附录(Word study support)、口语板块学习笔记附录(My learning notes support)、语法附录(Grammar file)、单元词汇表(Words and expressions in each unit)¹、字母序词汇表(Words and expressions in alphabetical order)、专有名词和术语表(Proper nouns and glossary)、数词(Numbers)、月份和星期(Months and days)等专项词表、不规则动词表(Irregular verbs)等,为学生提供丰富的学习辅助资源。

以八年级上册学生用书的结构为例:

图 1 八年级上册学生用书结构图

学生用书采用主题单元的编排方式,每个分册的单元主题推进按照从具体到抽象、从浅显到深刻的顺序逐步深入,循环上升。

每个常规单元以大问题为引领,设置五大板块,各板块按照子话题推进,前四个子话

1 词汇表中的音标参照《牛津高阶英汉双解词典(第9版)》,使用国际音标(International Phonetic Alphabet)标注。

题分别对应视听、口语、阅读、写作的语言技能，最后一个子话题对应单元的综合实践项目探究，随着话题逐步深入，帮助学生构建对单元主题更深层的认识和理解。

每个板块中的活动以任务链的形式逐个推进，最后以板块任务自测活动作为结尾。

四、学生用书的单元板块结构和设计思路

学生用书单元从单元主题下的大问题出发，通过主题图创设主题语境，导入话题。用单元学习任务清单明晰本单元的学习任务，并依次按板块推进展开。四个子任务分别承载视听、口语、阅读、写作的技能训练，通过多模态语篇输入、分层活动设计、语言知识和技能的策略指导、跨学科及跨文化相关内容呈现，有机整合单元学习目标，并帮助学生循序渐进地探究主题意义；通过过程性评价活动，检验阶段性学习成效。最后的单元大任务以项目探究的形式展开，鼓励学生开展围绕单元主题、回应单元大问题、跨学科 / 跨文化融合的自主、合作、探究式学习，践行“教—学—评”一体化的理念，有效帮助学生提升核心素养。

学生用书每单元安排以下固定板块：单元大问题、任务清单、单元导入、视听理解、口语表达、阅读理解、语法使用、写作表达、探索发现、项目探究。

同时安排灵活板块：胡博士课堂、词汇学习、学习笔记和任务自测。“灵活”主要指板块位置相对灵活，根据相关语言知识和技能训练内容出现。

学生用书的单元板块结构和设计思路如表 1 所示：

表 1 学生用书单元板块结构和设计思路

板块位置	固定板块	设计思路
主题图页	单元大问题 Big Question	单元主题图页呈现有冲击力的主题相关图片，从指向单元育人目标和主题意义的单元大问题导入，以核心素养为导向，依据使用者体验为中心的理念，用学习任务清单的形式呈现单元活动任务链，将单元学习目标隐性嵌入，有机融合核心素养的四个方面，同时帮助学生实践元认知策略，明确英语学习目标、制订学习计划。其呈现形式有助于加强该板块的真实性和实用性，也体现以学生为中心的编写理念。
	任务清单 To-do list	
	单元导入 Getting started	单元导入注重联系学生生活体验和已有知识，导入单元话题和大任务情境，引发学生思考，激发学习兴趣。该板块以丰富的形式呈现单元导入活动，聚焦学生的学习起点，旨在帮助学生为后续学习做好语言、知识、思维、情感等多方面的准备和铺垫。
A	视听理解 Viewing and listening	本板块注重真实情境的创设、多模态语言的输入以及新旧知识的关联，兼顾学生的认知特点。先通过以旧带新的方式，用多模态语料输入单元目标词汇、构建板块情境，再通过类型丰富的（视）听文本和层层递进的（视）听活动，对学生进行（视）听策略指导，帮助学生学习相关语言知识（以语音知识、词汇知识为重点），实践语言技能（以听、视技能为重点），激活高阶思维。

(续表)

板块位置	固定板块	设计思路
B	口语表达 Speaking	本板块从真实情境创设入手,通过多模态文本和口语对话示范文本输入,为开展板块任务做好相关子话题的语言和技能策略准备。通过视听理解、策略指导、延续对话和角色扮演等在学习理解、应用实践、迁移创新层面层层递进的学习活动,帮助学生语言知识(如词汇和语用知识)、训练口语表达技能、激活高阶思维,并适时关注青少年综合生活技能。同时借助学习笔记(My learning notes)的语言表达提示,为学生搭建语言输出的脚手架,完成真实的口语交际任务。
C	阅读理解 Reading	本板块从真实的情境创设入手,通过读前准备活动(关注文本类型、语篇特征、背景知识、内容预测等)、多模态文本阅读、读后第一反应、整体理解、细节理解、高阶阅读理解等在学习理解、应用实践、迁移创新层面层层递进的学习任务,以及词汇聚焦(Vocabulary focus)活动,将语言知识教学、文化意识培养与高阶思维训练充分融合,帮助学生语言知识(如语篇、语法、词汇等知识)和文化知识、实践阅读理解技能、激活高阶思维、开展跨文化对比思考等。
/	语法使用 Grammar in use	本板块采用“发现—归纳—运用”的路径设计,体现语法知识是“形式—意义—使用”的统一体。帮助学生基于单元学习,注意、发现语言现象,从语言现象中归纳、提炼语法规则,深化对语法点形式、意义和用法的理解,在情境中运用和实践所学语法知识,从而建构系统的语法知识体系。本板块四个活动的重点分别是注意发现、归纳总结、初级运用、综合实践。语言运用任务突出层次性、交际性和趣味性,鼓励学生在使用中学会语法。 教师通过让学生查阅语法附录(Grammar file),参考针对该语法项目更全面的规则解释和例证,帮助学生自主学习和知识拓展。 当涉及语法术语时,建议使用中文,不要让语法术语成为影响学生理解的障碍。
D	写作表达 Writing	本板块结合学生生活体验,创设真实情境,说写融合,辅以策略指导、范文支架,以任务驱动的方式实践输出,体现以读促写、过程性写作的编写理念。五个活动的定位分别是写前思考、写前准备、写前构思、写作、写后检查。本板块用简明的步骤指示关键词,帮助学生带着任务学习范文,准备内容,布局结构,记录要点,落笔成句、成段、成篇章,最后再检查改进,一步步完成写作任务,从而初步检验单元整体语言学习成果。

五、学生用书单元内容课时分配建议

建议教师根据学情,合理安排教学。以下是学生用书各单元内容课时分配建议:

1. 常规单元(建议课时:7—10课时)

(1) 导入、视听(Getting started + Viewing and listening): 1—1.5 课时

(2) 口语(Speaking): 1—1.5 课时

(3) 阅读、语法使用(Reading + Grammar in use): 2—3 课时

(4) 写作(Writing): 1 课时

(5) 探索发现(Discovery): 1 课时

(6) 项目探究(Project): 1—2 课时

项目探究板块的课时安排说明如下:

该板块可根据实际情况灵活安排,如:布置任务、示范指导和课内实践操作可安排 0.5—1 课时;学生成果展示可安排 1 课时。

起始单元建议用 0.5—1 课时安排布置任务,通过教师指导和案例示范,帮助学生理解任务目标、流程、分工、时间安排、内容及要求,并组织学生开展小组活动;建议另外安排 1 课时用于学生成果展示。

当学生熟悉项目探究板块的学习要求之后,后续单元可根据学情和项目要求灵活安排,如:用 10 分钟左右时间布置任务、协调分工。

在学生课外分工合作完成探究任务后,可安排 1 课时用于学生成果展示。如学校使用课外学习交流平台,可将学生成果展示和分享在课外学习交流平台,安排同伴互学、互评。建议用 0.5—1 课时做学生作品交流、评价汇总或教师点评,确保评价的落实。

2. 文化角单元(可根据实际情况选择使用)

(1) 学生课前自学两个文化角单元,分别用 1 课时交流学习体会;

(2) 分别用 2 课时教学两个文化角单元:第一印象(First impressions)和文化亮点(Highlights)用 1 课时教学;文化沟通(Bridging cultures)用 1 课时教学;

(3) 增加课时适当拓展。

3. 文学角单元(可根据实际情况灵活安排)

(1) 名著节选(A chapter to start with): 1 课时

教师可通过趣味导读、作者及作品介绍、相关影视动画作品关联、节选略读等方式,激发学生对作品的阅读兴趣,指导学生制订阅读计划、使用阅读记录单。

(2) 戏剧选段(A scene to act out): 1—2 课时

教师可介绍课本剧的相关背景(作者及作品信息、节选片段情节背景、剧中角色和人物关系等),帮助学生分组、确定角色,给学生时间熟悉台词并排练,课上表演或课后录制表演视频用于展示。鼓励学有余力的学生阅读整部作品,或选择其他感兴趣的片段排演。

(3) 诗歌品读(A poem to savour): 1 课时

教师可通过形式丰富的活动帮助学生学习诗歌,品味其意境及特色,鼓励学有余力的学生模仿诗歌风格,选择话题,仿拟或创作自己的诗歌。

六、教学参考资料的编排方式、设计思路和使用建议

教学参考资料共八册,与学生用书分册逐一对应,每册教学参考资料包含前言、目录、正文以及附录。正文部分包括学生用书中的衔接单元、常规单元、文化角和文学角单元相应的教学参考资料内容。附录 1 为学生用书各单元派生词、复合词解析;附录 2 为练习部分听力文本和参考答案。

单元内设有单元一览(单元内容结构图、单元目标、单元内容概览)和单元主体板块(单元主题图页、A 板块、B 板块、C 板块、Grammar in use 板块、D 板块、Discovery 板块、E 板块)对应的教学参考资料部分,其中单元主体部分的内容与学生用书页面对照呈现,方便教师备课。

单元主题图页 (Cover page)

单元大问题 (Big Question)

完成本单元的学习后，学生能够基于对地球水资源、生活中的水等的了解，通过学习体验和观察反思，认识到水的重要性和稀缺性，树立节水护水意识，养成良好的用水习惯。

单元主题图 (Theme photos)

单元主题图的中心是一棵树，画面从树的中间一分为二，左右两边分别呈现干旱之地和水源充足之地的不同景象，通过视觉上的强烈对比凸显水对生命的滋养。教师可以请学生谈论对主题图的理解，由此过渡到单元导入的内容。

The image shows two different scenes. On the left, the ground is dry and cracked with a dead tree. On the right, the ground is green and there's a living tree. This picture shows how water makes a big difference. With water, plants grow and the land looks full of life. Without water, the land becomes dry and plants die.

任务清单 (To-do list)

本单元的任务清单包括：(1) 听并获取有关水的事实信息。(2) 谈论日常生活中的水。(3) 阅读关于缺水地区生活的小说节选。(4) 写护水倡议书。(5) 做关于每日用水情况的小组汇报。

单元导入 (Getting started)

教师请学生猜测单元导入中三个问题的答案并尝试回答，揭晓答案后可对答案加以解释，酌情分享更多关于水的有趣事实。

参考答案

Getting started

- 1 About three days. (Some may live longer, but generally speaking, most people can live about three days without water.)
- 2 About 60%. (The percentage of water in the body may vary from person to person. For babies, it can be as high as 80%.)
- 3 Many years. (Surface water can move several metres per second. In contrast, groundwater moves very slowly. In some materials that let water flow through, groundwater may move several metres in a day; in other places, it moves only a few centimetres in a century.)

补充资料

More facts about water

- 1. About 95% of a tomato is water.
- 2. So far as we know, the Earth is the only planet with liquid water.
- 3. Ice takes up more space than liquid water of the same weight.

子话题说明

视听板块围绕“水之真相”(Facts about water)这一子话题展开,通过学习多模态文本和科普介绍,了解地球水资源的分布和使用情况、水对人类的重要性、安全饮用水的稀缺等,涉及多种数字类型的表达。

A1

- **语篇说明:** 这是一张关于地球水资源与其使用情况等的资讯图表,用5组图文信息直观地呈现关于水的一些事实性知识。
- **教学要点:** 请学生解读并用完整的语句表达图中所反映的事实信息,为后续视听活动做好语言和背景知识准备。
- **备选活动:**
 - (1) 请学生阅读资讯图表,将每组信息与其主题配对。
 - ① How many groups of information can you find in the infographic? (Five.)
 - ② Match each picture with the right information.

- | | | |
|---|---|--|
| 1 |  | the percentage of people lacking safe water in the world |
| 2 |  | the Earth's water divided into three parts |
| 3 |  | how much water a dripping tap wastes |
| 4 |  | the amount of water you need to take in each day |
| 5 |  | where fresh water is used by humans |

(2) 请学生关注资讯图表中的数字。

Circle all the numbers in the infographic. How many numbers have you found? What are they? What other numbers are “hidden” in the pictures? (I have found eight numbers. They are: 2.7, 3.7, 69%, 19%, 12%, 1, 86,400, and 4.32. The hidden numbers include: 1%, 2% and 97% for “Water on Earth”, and $\frac{1}{4}$ or 25% for “not enough safe drinking water”.)

(3) 组织学生学习本活动涉及的词汇,如 litre, factory, drip 等。

参考答案

A1

(Answers may vary.)

1 About 97% of the Earth's water is sea water. Humans can use only 1% of the Earth's water. 2% is fresh water locked up in ice or deep underground.

- 2 About one fourth of the world's population doesn't have enough safe drinking water./One in four people in the world do not have enough drinking water.
- 3 To remain healthy, we need to take in 2.7–3.7 litres of water every day, depending on our age, gender and body weight.
- 4 69% of the fresh water for human use is used on farms, 19% in factories, and 12% in homes.¹
- 5 A tap dripping once a second wastes about 4.32 litres of water in a day.

All about water

Do you know how old water is? Believe it or not, water on Earth has been here for billions of years, moving from place to place and changing from one form to another. Thanks to the water cycle, our planet has always had the same amount of water.

Water is everywhere. Surface water, such as oceans and rivers, covers over seventy per cent of our planet. There is more water underground; we call it “groundwater”.

Clean, fresh water is rare. About ninety-seven per cent of the Earth’s water is sea water. The rest is fresh water but two thirds is locked up in ice or deep underground. We can reach the other third and most of that is polluted. Only about zero point three per cent of fresh water is left for us to drink.

Water is life. We cannot live without water, but about two billion people on this planet don’t have safe drinking water.

Water is useful. We use water in countless ways, drinking it, washing with it, watering plants, making products, and putting out fires with it ...

What else can water be? Explore the museum to find out!

A2

- **教学要点：**教师帮助学生识别其在科普讲解中听到的数字。
- **备选活动：**帮助学生复习不同类型数字的读法，可结合学生用书上的数词附录（**Numbers**, P147—P149）加深其理解，也可参考“补充资料”。

补充资料

数字读法：

$\frac{1}{10}$: one tenth; $\frac{1}{2}$: a half; $\frac{2}{3}$: two thirds;

0.35: zero point three five;

1%: one per cent; 10.95%: ten point nine five per cent;

2,550,400: two million, five hundred fifty thousand, four hundred

参考答案

A2

A3

- **教学要点：**教师帮助学生运用视听策略，理解数字在上下文语境中的意义。
- **备选活动：**

(1) 帮助学生获取录音或视频中的细节信息。

Tick the information you hear from the recording.

☒ Water on Earth is billions of years old.

☐ The Earth is losing its water quickly in recent years.

☒ There is water both on the Earth’s surface and underground.

☐ Most of the Earth’s water is polluted.

☒ Many people in the world don’t have safe drinking water.

(2) 就视频中的数字图示技巧进行拓展分析。向学生展示从一桶水中取出一勺水的视频画面, 并提供情境化表达, 帮助学生更直观地理解 0.3% 的含义。

Make numbers meaningful: When sharing an idea, we often use numbers to support it. However, the numbers we use may not always make sense to the listeners or the readers. To help them better understand our idea, we need to make our numbers meaningful by putting them in context.

An example from the video:

More examples:

- ① Glaciers hold about 2% of the total water on Earth. That may not seem a lot, but if all the glaciers melted, sea levels would rise by about 70 metres.
- ② If you let the water run for ten minutes while washing your dishes, you may waste 100 to 200 litres of water. That's more than enough to wash a car!

参考答案

A3

- **教学要点:** 再次播放关于水的科普讲解的录音或视频, 请学生听辨讲述者支撑两个论点时用到的数字, 并根据其完成情况评价本节课的学习成效。
- **备选活动:** 请学生关注视频中关于水的其他论点及支撑细节。

子话题说明

口语板块围绕“日常生活中的水”(Water in everyday life)这一子话题展开,针对浪费水的后果、节约水的方法和隐形的水足迹等话题展开学习与讨论,涉及如何细化演讲主题、如何表达同意和不同意等技能策略。

B1

- **语篇说明:** 这是一段陆遥与王一鸣之间的对话,两人就确定小组演讲的主题展开讨论。该对话依据“话题建议 1 → 不同意 + 理由 → 话题建议 2 → 同意 + 个人理解 → 同意 + 更多信息 → 补充建议 → 同意”的内容逻辑展开,经过多轮意见交互最终达成一致意见,将小组演讲主题细化为“浪费水的后果”。
- **语用功能说明:** 本单元语用功能为表达同意和不同意 (Showing agreement and disagreement), 用于回应他人的提议, 帮助交际双方就某一事项达成一致意见或交流不同意见。为了礼貌地表达不同意, 通常会使用 “Well, ...” “I’m afraid ...” “Hmm, I’m not sure.” “Not bad, but ...” 等表示迟疑、不确定或先肯定后转折的语气并解释原因, 使对方更容易接受。学生用书上的学习笔记本附录 (My learning notes support, P123) 提供了更多可用表达。
- **教学要点:** 教师组织学生通过听读对话, 理解交际目的和对话主要内容, 同时关注相关的语用功能表达 (表达同意和不同意)、语法知识 (不定代

B Water in everyday life

>> Speaking

Lu Yao and Wang Yiming are going to give a group presentation about water.

B1 Listen, read and think What are they going to say about water in their presentation?

Lu Yao: Shall we talk about how useful water is?
Yiming: I'm afraid that's a little boring. Let's share something new, not things people already know.
Lu Yao: You're right. What if we talk about the bad things that happen when we waste water?
Yiming: Good idea! With water everywhere, many people don't see the need to save it.
Lu Yao: Exactly! The problem is, the more water we use, the more energy and chemicals are needed for wastewater treatment. This not only wastes energy but also makes water less safe for drinking.
Yiming: Oh! That's really bad! We can include more facts like this in our presentation to encourage everyone to save water when they can.
Lu Yao: That's really clever! I'll start researching right away!

Showing disagreement:

- I'm afraid I don't agree, / I don't think that's a good idea.
- _____

词)和口语交际策略(细化演讲主题)。

- **备选活动:** 请学生听 B1 的对话范例, 关注对话中交际双方的语气、交际目的和主要话题内容, 模仿录音的语音语调, 并感悟说话者的情感态度。再请学生读 B1 的对话, 关注本单元的口语交际策略要点和语用知识重点。

(1) 请学生关注对话大意。

- ① What is the purpose of the conversation between Lu Yao and Yiming? (*To decide on the topic for their group presentation.*)
- ② What topics have they discussed in the conversation? (*How useful water is, and the bad things that happen when we waste water.*)
- ③ What is their final decision? (*To talk about the bad things that happen when we waste water.*)

(2) 请学生关注语用功能表达。

What do they say to show agreement or disagreement? Underline the expressions. (*I'm afraid that's a little boring./You're right./Good idea!/Exactly!/That's really clever!*)

(3) 帮助学生拓展语用知识: 在表达同意 / 不同意对方提议时可说明理由, 在不同意时还可以提出新的建议。

① Why doesn't Yiming like Lu Yao's first suggestion? (*He thinks the topic is a little boring. People already know how useful water is.*)

② Why does Yiming like Lu Yao's second suggestion? (*He doesn't think people realise the importance of saving water/the danger of wasting water, so they need a reminder.*)

(4) 帮助学生掌握语法知识: 该口语文本嵌入了一个次要语法点: 不定代词 (indefinite pronouns)。相关语句为:

① Let's share something new, not things people already know.

② We can include more facts like this in our presentation to encourage everyone to save water when they can.

该知识点虽未在学生用书的语法板块 (**Grammar in use**) 部分正式讲解, 但在语法附录 (**Grammar file**, P127) 中有所体现。在处理口语文本的适当环节, 可结合语法附录相关内容, 指导学生学习不定代词的形式和用法。

教师还可以设计一些活动, 帮助学生强化学习或检验学习成效。可请学生用其他不定代词造句, 或用恰当的不定代词完成句子, 也可以给出中文句子请学生翻译为英文。

- **口语交际策略:** 本单元重点教授的口语交际策略为细化演讲主题 (Narrowing down the topic for a presentation)。可分三步走:

(1) 围绕目标受众可能感兴趣的主题进行头脑风暴, 小组讨论选定一个最佳主题;

(2) 思考该主题可拆分为几个子话题, 结合人员分工、时间限制等具体情况确定要讲解的一个或若干子话题;

(3) 围绕话题思考有话可讲、有资料可循、能驾驭的具体问题。讨论过程中, 如果不同意其他小组成员提出的话题, 可以用以下语言表达:

- This topic has been done a lot, so it's not new or special.
- This topic doesn't seem very exciting/fun to explore.
- The topic is too big to talk about completely within our time limit.
- This topic isn't related to what we're learning.
- The topic seems too challenging for us to handle effectively.
- We can't find information on this topic. We should consider something that's easier to research.

参考答案

B1

The bad things that happen when we waste water.

语言注释

- **useful** *adj.* that can help you to do or achieve what you want 有用的; 实用的
*Water is **useful** for human society in countless ways.*
*Learning to swim is **useful** because it helps you stay safe in the water.*

B2

- **语篇说明：**这是一张关于水的海报，包含两组信息：一是日常生活中节约用水的小贴士（Water tips），二是食物和生活用品中隐形的水足迹（Indirect water footprint）。
- **教学要点：**请学生两两结对，参照 B1 口语范例，选取 B2 多模态图片中 Water tips 或 Indirect water footprint 话题中的一个以及图中相关信息开展对话。
- **备选活动：**
 - （1）通过简化的任务搭建支架，从一问一答对话入手，请学生练习同意/不同意的语用表达。

A: Shall we talk about fun water activities in our presentation?

B: Yeah, that sounds like a great idea./ I'm afraid not.

A: Saving water is a boring topic. It's all about turning off the tap.

B: I agree with you. Saving water is such a dry topic./I don't think so. Saving water is far from boring.

（2）请学生读图，与同伴讨论、分享对图文信息的理解，为最终完成对话输出打下基础。

Look at the poster and discuss with a partner:

① How many topics can you find in

Unit 1

B2 Discuss If you are going to give a group presentation about water, what will you say about it? Discuss with a partner. Use the information below to help you.

Water tips
Everybody talks about saving water, but many may think it's just a matter of turning off the tap. Actually, there are countless methods beyond this.

Take shorter showers.

Water plants with grey water.

Use energy-saving washing machines.

Run the dishwasher only when it is full.

Indirect water footprint
It takes water to make these things, even though we don't see water in them. Wasting these things also means wasting water.

1 kilo of sugar

a hamburger

a cotton shirt

a pair of shoes

TEEN skill Narrowing down the topic for a presentation

- As a group, discuss possible topics that interest everyone.
- Narrow your focus to a specific aspect of the topic: for example, "Water in industry" or "Water culture" rather than "Water".
- Ask questions, such as "How useful is water for industry?" or "Are factories treating wastewater properly?"
- Make sure you can provide new information to your audience while answering the questions.

☒ **Update my to-do list**

☐ ☐ ☐ ☐

Work in pairs. Discuss what else you can say about water in a presentation. You may follow the example in B1.

7

the poster? What are they? Which topic interests you more?

- ② What have you learned about water from the poster?
- ③ Do you know any other ways to save water?
- ④ Do you know how much water it takes to make the things in the poster?

补充资料

1. More ways to save water

- Don't leave water running while brushing your teeth or soaping your hands.
- Use a washing-up bowl to wash vegetables, not a running tap.
- Use the washing machine when it is full. For small loads, use the "Half-load" or "Eco" mode if available.
- Reuse water whenever you can.
- Water your garden early in the morning, when it is cool.

2. How much water does it take to make the things in the poster?

A kilo of sugar takes about 1,500 litres of water, a hamburger 2,500 L, a cotton shirt 2,700 L, and a pair of shoes 8,000 L.

(3) 请学生分析梳理 B1 对话的内容逻辑, 让其参照梳理好的逻辑框架进行对话。

- ① Suggest a topic; ② Disagree & make a suggestion; ③ Agree & suggest another topic; ④ Agree & share an opinion; ⑤ Agree & provide more information; ⑥ Agree & make a suggestion; ⑦ Agree & promise to act

(1)

A: Shall we talk about how useful water is?

B: I'm afraid that's a little boring. Let's share something new, not things people already know.

A: You're right. How about talking about useful ways to save water?

B: Hmm, I'm not sure. Saving water is a common topic. It's just a matter of turning off the tap, which is nothing new.

A: Well, I don't think so. Actually, there's more to it than that. For example, we can water plants with grey water and use energy-saving washing machines.

B: Oh, I see. Those are good ideas. We could share as many water-saving tips as we can to help people save water.

A: Sure! Let's start looking it up!

(2)

A: Shall we talk about how useful water is?

B: I'm afraid that might not be too exciting. Let's explore something fresh and new.

A: Good point. What about the indirect water footprint? It takes water to make things like sugar, shirts and shoes, though we don't see water in them.

B: Good idea! It'll remind people that wasting these things also means wasting water.

A: Exactly! I wonder how much water it takes to make a kilo of sugar or a hamburger.

B: We can find out and share more facts like this to encourage people to save water when they can.

A: That's really clever! I'll start researching right away!

语言注释

- **That's really bad!** used to say that something is not good or a situation is serious 太糟糕了! 更多类似表达: *That's not right./That's terrible!/How terrible!/That's unacceptable!*

子话题说明

阅读板块围绕“缺水之地”(The land of little water)这一子话题展开,通过一篇小说节选呈现巴基斯坦干旱的沙漠地区的生活,引导学生通过对比,意识到水的重要性,珍惜水资源。

- **语篇说明:** 这是一篇小说节选,选自美国作家苏珊·费雪·史戴伯斯(Suzanne Fisher Staples)的小说《莎巴努: 风的女儿》(*Shabanu: Daughter of the Wind*)。故事以第一人称视角,按照时间顺序,讲述了一位叫莎巴努的女孩的生活片段,反映了沙漠地区极其缺水的艰苦生活。故事包含女孩清晨起床徒步远行取水、在水坑旁洗头、回忆小时候缺水的生活细节、为寻找新水源而做好迁徙准备等情节,语言生动,描写细致,感情真挚。
- **阅读策略:** 本单元重点教授的阅读策略为理解故事叙事顺序(Understanding sequence),为学生用书六上第三单元和七下第三单元阅读策略的复现。作者常常会按照事情发生的先后顺序来讲述故事,通过时间的推移和地点的切换来推进情节也是常用的写作手法。

Authors usually tell stories in the order things happen (i.e. the *chronological order*). A common method in writing is to show this order by moving through different times and places.

No, I don't. Compared to Shabanu, I can get water easily, so I always use it wastefully. While Shabanu has to take long walks to the *toba* every day to get water, I enjoy the convenience of turning on a tap and getting as much water as I want. Shabanu washes her hair at a bathing rock by pouring water over it from a pot, which sounds very inconvenient. I take a shower and use much more water than she does. Her mother used to bathe her and her sister with just one cup of water, but I can't imagine how that's possible.

背景知识

1. The author of the book, Suzanne Fisher Staples, was born in 1945 in Pennsylvania, the US. As a news reporter, she lived in Pakistan for several years and learned a lot about the local culture and people's way of life. With such experience, she has created realistic and interesting stories about life in the desert of Pakistan.
2. The story is adapted from the novel *Shabanu: Daughter of the Wind*, a very popular young adult book that was published in 1989 and awarded the Newbery Honor (纽伯瑞儿童文学奖银奖) in 1990. It tells the story of a brave girl named Shabanu, who lives with her family in a desert in Pakistan. Though facing many challenges, Shabanu is determined to gain freedom that most girls in her culture do not enjoy.

- ① At the *toba* I look out over our water. We will have about a month before it dries up, but the rainy season will not begin for another two months. (*Feeling worried about not having enough water*)
- ② I carefully rub the soap into my hair and skin until every drop of water is fully used. Water is precious, so I can't waste any. (*Need to save every drop of water*)
- ③ Mum used to bathe my sister and me with just one cup of water when we were small. (*Thinking back to how tough it was when they had very little water*)

Writing style

In a well-written story, the author “shows” what happens with vivid details rather than simply “tells” in a matter-of-fact way.

For example, instead of simply telling readers that “I get up early in the morning, and go to the water hole with soap and water pots.”, the author adds lots of descriptive details, such as “The sky is grey”, “Rubbing my eyes”, “tie a piece of soap into the corner of my clothes”, “putting one (pot) on my head and the other under my arm”. Details like these create pictures in readers’ mind, thus making the story seem more real and vivid.

Conversion and its function

- Conversion is a process in English where a word changes its grammatical function without any change in form. This allows the same word to be used as a different part of speech.
- Conversion gives simple words new meanings, allowing writers to avoid using difficult words or more words than necessary. It also adds vividness and descriptive power to writing.

(1) *The cat likes to **fish** for toys under the sofa.*

In this sentence, “fish” is used as a verb instead of a noun, referring to the cat’s playful behaviour.

(2) *He doesn’t have any ideas of his own; he just **parrots** what other people say.*

In this sentence, “parrot” is used as a verb, meaning to repeat.

(3) *My brother took a long **swim** in the river yesterday.*

In this sentence, “swim” is used as a noun instead of a verb.

活动 1

- **教学要点:** 活动 1 旨在帮助学生在理解句子意思的同时, 探索时间状语从句的形式和表达的意义。可引导学生关注句中下划线部分的语言形式, 观察和总结其共同点。

- **备选活动:**

(1) 在观察活动 1 中的句子之前, 可通过提问的形式从阅读活动过渡到语法活动。如就阅读语篇第 2、3 段进行以下提问, 答案即是活动 1 中的四个句子:

- ② When does Shabanu take the pot of water to the nearby bathing rock?

评价建议

教师可根据学生完成每个活动的实际情况, 随时调整教学进度和方式。如果学生对该语法点掌握不佳, 可以在文本分析的过程中, 引导他们重点关注时间状语从句的形式和意义(如寻找学生用书口语和阅读板块的相关例句, 或补充包含较多该语法点的其他文本用于分析), 也可设计一些有针对性的书面语法练习, 帮助学生掌握该知识点并

熟练运用。最后, 通过学生完成活动 4 的表现评价其学习成效, 重点关注以下两个方面: 一是语言形式上是否使用了时间状语从句讲述图中信息, 特别是对连接词的选用是否恰当; 二是表达内容上是否完整通顺, 是否能根据需要补充图中隐含但未明确提供文字的信息内容(如 be patient and wait, 要等到什么时候?), 是否用到 first, but, so 等连词使语篇更连贯等。

Writing

Your school is having a Water Week event. Write a proposal to encourage people to protect water.

D1 Think Read Lu Yao's proposal. How many water tips can you find in it?

Dear friends,
Clean water is limited and will become less as we continue to use and pollute it. I suggest we act now to protect water at school.
It's easy to start small — turn off the tap while soaping our hands, use rainwater for plants, and tell the teacher when we find something wrong with a tap.
We should also spread the ideas to everyone. We can put up signs, start river clean-up groups, or show videos to raise awareness of water protection.
Water is nature's gift. Together, we can save it for now and the future. Be a water hero!

Writing a proposal

When you find a problem, you must first explain its importance; otherwise, people may lose interest. After raising people's awareness of the problem, you can suggest solutions. Then, conclude with a direct call to action.

补充资料

1. The structure of the body part of a proposal

The body part of a proposal often focuses on specific tips or suggestions. Of course, you can list all the tips in one paragraph, numbering them 1 to 10 or more. But to better organise the ideas, you can group them and present them in separate paragraphs. In the following example, five tips are divided into three groups, rather than put in one paragraph.

First, use less water. We should take short showers instead of baths, and not leave the water running when brushing teeth.

Second, reuse water. The water we use to wash vegetables is still clean and usable for other purposes, such as cleaning the floor or watering plants.

Third, keep water clean. We mustn't throw rubbish into rivers and seas. And factories must treat wastewater properly.

2. Protecting water: dos and don'ts

Dos:

- **Use water wisely:** Take shorter showers and turn off the tap while brushing your teeth.
- **Fix leaks:** Check for dripping taps and fix them immediately.
- **Spread the word:** Share information about water protection with your family, friends and community.

Don'ts:

- **Don't pollute:** Keep rubbish and harmful chemicals away from waterways.
- **Don't waste:** Avoid letting the water run unnecessarily when washing dishes or clothes.

New ways to supply water

Cloud seeding^①

Cloud seeding is a method of using special chemicals to make clouds rain. At present, over 50 countries in the world, including China, Australia, India and South Africa, use cloud seeding to increase rainfall in their dry regions.

The South-North Water Transfer^② Project

The project started in 2002, and transports water over 1,000 km from the Yangtze River basin^③ to the Yellow River basin. It has helped to improve the water supply in northern China for homes, farming and industry.

The Iceberg^④ Project

In 2017, an Emirati^⑤ company announced plans to bring icebergs from Antarctica to the UAE to provide a new source of fresh water for the country. The company is still working on ways to reduce the cost and keep the ice frozen. If successful, the project will provide millions of people with safe drinking water.

Read and think Which method do you like best? Why?

① cloud seeding 人工降雨 ② transfer 搬运; 转移 ③ basin 流域 ④ iceberg 冰山
⑤ Emirati 阿联酋的

transportation.)

(3) 讨论: 组织学生分组讨论三个平行文本, 分享自己最喜欢的方法并给出理由。

Which method do you like best? Why? (*I prefer the South-North Water Transfer Project because it has been making a real difference by providing water to homes, farms and factories in northern China.*)

(4) 拓展: 针对三个话题补充更多问题, 请学生通过思考或查阅资料进行解答。

- ① How does cloud seeding work? Is it possible to make clouds rain anytime anywhere using special chemicals? (*To make clouds rain, you first look for clouds that have lots of water droplets but aren't raining yet. Next, a plane flies into these clouds at just the right time. The pilot then drops special chemicals like dry ice into the clouds, which helps the water droplets in the clouds turn into tiny ice pieces. When the ice pieces get too heavy,*

they begin to fall out of the cloud. As they fall, they meet warmer air and change from ice back into water, which we see as rain. Cloud seeding doesn't work just anytime anywhere. It depends on many factors, such as having the right kind of clouds, the right timing and whether the chemicals are spread properly.)

- ② What else do you know about the South-North Water Transfer Project? (The project includes three routes: the Eastern route, which is operational and uses the Beijing-Hangzhou Grand Canal; the Central route, which starts from Danjiangkou Reservoir and ends in Beijing; the Western route, which is planned but has not yet started. In 2014, the completed parts of the project began operation. As of May 2022, the project has become the primary source of water for over 140 million people across more than forty cities.)
- ③ Do you think the Iceberg Project will work? Are there any environmental concerns? (I think the Iceberg Project might face a lot of challenges. It's hard to move icebergs from Antarctica because it costs a lot of money and they might melt on the way. Also, moving icebergs could hurt the animals and plants in Antarctica and change the saltiness of the water near where the icebergs are moved. It might be better to use other ways to get water, like making salt water drinkable. The Iceberg Project might work for a short time if the costs are lower, but it could have bad effects on nature in the long run.)

补充资料

1. The Drinkable Book

Scientists working with an NGO called WATERisLIFE have developed a water filter (过滤器) in the form of a book. It contains useful tips about staying clean and healthy. It also purifies water. The book's pages are made from special filter paper that can clean water by removing 99.9% of the bacteria. It can provide clean drinking water to a person for four years.

2. Water supply at China's space station

The Shenzhou-12 spacecraft doesn't carry enough water for the astronauts' stay at the space station. To solve this problem, they use a special system to recycle and reuse water. The system can collect water from the astronauts' breath and urine (尿液) and then turn it into drinkable water.

背景知识

1. 人工降雨是一种通过人为方法促进云层降水的技术，通常通过向云层中播撒特定物质来实现。该技术可用于缓解干旱地区的水资源短缺问题，有时也用于避免重要户外活动或庆典日的不利天气。人工降雨的实现既需要专业设备和技术人员作业，又需要满足适宜的云层和气象条件，实施前要考虑其环境影响和成本效益。
2. 南水北调工程是中国规模最大的跨流域水资源调配工程，也是世界最大的调水工程。该工程将长江流域的丰富水资源，通过东、中、西三条线路，输送到干旱的华北和西北地区，有效缓解了北方地区的水资源短缺问题。南水北调工程采取调水、节水和治污等综合措施，对保障国家水安全具有重要意义。
3. 冰山拖运计划由阿联酋企业家阿卜杜拉·阿尔谢希 (Abdulla Alshehi) 提出。他所在的公司计划从南极洲开采冰山，拖运大约 8 800 公里到阿联酋的富查伊拉 (Fujairah) 海岸。但该计划面临着技术、经济和环境等多方面挑战，目前仍在探索中。

Section E Our water use in a day

>>Project

子话题说明

项目探究板块围绕“每日用水情况”(Our water use in a day)这一子话题展开。学生基于亲身观察,记录自己一天用水的情况,进行分组交流与准备,最后以小组演讲的形式汇报观察数据并分享活动感受,以回应单元大问题,在项目活动中感知水对人类的重要性,反思和改善自己的用水习惯。

教学提示

- **教学要点:** 该活动基于学生对自身用水习惯的观察、记录和反思。教师在开始实施项目前应通过讲解和问答确保学生理解任务要求。可给学生一些提醒,如:(1)选择自己最方便观察和记录的一天作为实验日,并预先做好准备,方便准确观测用水量。(2)过程指令语中提到要使用已知容积的瓶子或水桶,是为了方便计算用水量(容积乘以用完的瓶/桶数),避免每用一次水都要单独测量。(3)如遇不方便使用预先准备的瓶/桶来装水的情况(如淋浴、冲马桶等),可通过网络查询资料,估计耗水量。

注意:(1)可在单元前面板授课过程中(而非所有板块授课结束时)启动项目任务,方便学生提前进行个人实验日观察,并有充分的时间进行小组讨论和展示准备。(2)成果展示的方式可以多样化,可鼓励学生采用幻灯片汇报、撰写报告、制作小视频、制作小组海报等不同的形式。教师也可根据学情,规定某一种形式进行汇报或展示。

- **更多资源:** 学生可以通过网络查询资

E Our water use in a day

Project

Giving a group presentation about our water use in a day

Find out how much water you use in a day and give a group presentation about your findings.

Step 1 Prepare Prepare some bottles of water. Make sure you know the amount in each bottle (e.g. 5L, 550ml).

Step 2 Record Use water only from your bottles if possible. Take notes when you use water not from your bottles.

- 6:40 flush the toilet
- 12:00 refill the 5L bottle
- 20:45 take a shower

Step 3 Add up Add up all the water you used in a day. DON'T FORGET the water not from your bottles.

Step 4 Discuss Discuss what information to include in your group presentation. e.g. How much water does everyone in your group use on average? Would you use water differently if you had to walk for hours to fetch water every day?

Step 5 Present Give a group presentation to share your findings and ideas.

Update my to-do list

Listen to other groups' presentations. Which do you like best? What have you learned?

You can search the internet for the information you need. For example, "How much water does a shower take?"

料,了解世界不同国家和地区每人每日的平均用水量,分析差异,发现问题并思考如何改进。

Update my to-do list

- **教学要点:** 活动旨在给学生提供课内外展示小组发现和活动感受的机会,请学生评价各组表现,以及观看同伴分享过程中的新发现和新感悟。教师可结合学生小组的分享,带领学生回顾单元各板块的内容,重申水资源的稀缺性与重要性,关注他们是否从自我观察和学习反思中有所感触和领悟。
- **评价建议:**
 - ① 是否汇报了个人实验经历,通过记录和统计得出了自己一天的用水量?
 - ② 是否统计分析并用可视化手段直观呈现了小组成员的整体用水情况相关数据?
 - ③ 是否采用了本单元所学的语言知识和技能,条理清晰地表达了活动发现、个人反思与真情实感?

(3) 思考：请学生基于文本信息，展开思考，推断更多文本以外的信息。教师可以在学生完成表格后，引导学生进行思考：这三种数字支付方式各有什么优点？为什么这些数字支付的方式能够在中国得以发展和广泛运用？

- ① What are the advantages of the three digital payment methods? (*Digital wallets can store all the electronic cards, which makes it convenient for people to pay. Quick response codes can not only be used in payment but also in many other ways, such as marketing and information sharing. Digital money can be used both online and offline, which is useful when there is no network.*)
 - ② Why do different digital payment methods develop quickly in China? (*Because technology develops rapidly in China. For example, online shopping is very common in China. Many companies in China also participate in the global economy. As a result, digital payment methods are naturally accepted and widely used by people in China.*)
- (4) 拓展: 提供有关各种支付方式的补充材料, 或请学有余力的学生自发寻找一些相关的素材, 在课堂上进行分享, 增加对于各种支付方式特点和发展的了解, 并交流各自的观点, 思考如何在科技发达的当今世界, 运用合适和安全的支付方式, 以此提高学生自主学习、思辨和探究的能力(参考“补充资料”)。
- ① What are the potential risks of using these digital payment methods?
 - ② What can we do to keep digital payments safe and private?
 - ③ What new features might digital payments have in the future?
 - ④ Do digital payments change people's spending habits?

补充资料

1. Mobile Point of Sale (mPOS) systems

Different from POS, mPOS is a portable and wireless device. It enables businesses to accept payments anywhere. It uses an app on a phone or tablet, a card reader and receipt printers to process sales and print receipts.

2. Contactless payments

They are powered by near-field communication (NFC) technology. This payment method works by tapping a payment card or other devices near a point-of-sale terminal equipped with contactless payment technology.

3. Biometric authentication

It is one of the most secure ways to verify the identity of a person through face recognition or fingerprint scanning to make the deal.

背景知识

1. 可口可乐公司于 1997 年推出的一项允许客户在自动售货机上使用手机短信支付饮料费用的数字系统, 标志着数字钱包在日常生活中使用的开始。
2. 二维码是一种二维条形码, 具有操作简单、支付便捷、成本低等特点。它起源于日本 Denso Wave 公司于 1994 年研制的一种矩阵式二维条码, 最初用于追踪汽车零部件。二维码能存储文本、网址、联系信息等数据。
3. 数字货币具有方便、安全、透明的特点。人们可以随时随地使用手机支付, 不需要携带现金。每笔交易都有记录, 有助于大幅降低非法活动。

A3, Update my to-do list

“Why is the sky blue?” “Why do stars twinkle?” We keep asking questions and want to find the answers every day. We’re curious about the world from the day we were born. Curiosity is an inborn ability. Babies prefer to look at new pictures rather than familiar ones. They try to touch objects that they haven’t seen before. Preschoolers play longer with a toy when it’s harder for them to learn how it works. We know that school children ask countless questions. This is how they learn about the world.

Many grown-ups manage to keep their curiosity as they get older. If there is something they don’t understand, they will try to find out by continuous reading and exploring.

The power of curiosity

"Why?" the little girl asks her father. He gives an answer, and she asks again, "Why?" To the parent, these questions may seem never-ending, even a little annoying. But a child's curiosity is very important for the growing mind.

Curiosity helps the brain to better take in new information. In a 2014 study, the researcher invited some people to rate their curiosity about some questions before telling them the answers. One hour later, the researcher tested how well they remembered the answers. Results showed that when people were very curious about the fact, they were 30% more likely to remember it.

Curiosity also leads to more exciting ideas. In 1918, magician Harry made a big elephant disappear on the stage. In a recent experiment, people were asked how curious they were about Harry's trick and then given a few minutes to design their own

Curiosity encourages voluntary learning and helps discover career interests. Jeff Armstrong, a successful engineer, designs cars. "As a kid, I was crazy about cars," says Jeff. "I learned to do simple repairs to the family car. This led me to study engineering." Dr Fiona Grey, a leading heart doctor, says, "As a girl, I was very curious about how the human body worked, so I studied medicine."

Curious minds in history

It is said that one day, Isaac Newton was sitting under a tree. An apple fell and hit the ground beside him. (Some people say the apple fell on his head, but who knows?) He then wondered why things fall down, not up or sideways. That's how he came up with the idea of gravity.

Legend has it that Archimedes noticed that when he got out of his bath, the water in it went down. He then found that the level of the water in the bath was related^① to how much of his body was in the water! This was a very important discovery in physics.

When young, Qian Xuesen was curious about why paper planes could fly and how to make them go faster. Driven by this curiosity, he worked hard and became a pioneer in aerospace^②. His research laid the groundwork^③ for the technology used in Shenzhou spacecraft.

- ② What can you learn from these curious minds? (We can learn to keep asking questions and try new ideas, even when things seem hard. Their stories show that curiosity and persistence can turn

challenges into amazing discoveries.)

(4) 拓展: 提供更多有关三位名人的生平事迹和伟大成就, 鼓励接受程度较好的学生主动寻找更多与历史名人相关的好奇心故事, 为后续 Project 做好学习准备(参考“补充资料”)。

- ② Who do you like best? Why? (*Zhang Heng. I admire Zhang Heng because his curiosity and creativity led him to invent the first seismoscope, proving that exploring questions about nature can change the world. His story teaches us to stay curious and use science to solve real-life challenges.*)

补充资料

1. Marie Curie

Marie Curie developed a passion for science through her father's teachings. Later, she studied physics and chemistry, and with her husband Pierre, discovered polonium and radium after years of extracting them from uranium ore. She became the first woman to win a Nobel Prize (Physics, 1903) and the first person to win two Nobels (also Chemistry, 1911). Her research on radioactivity paved the way for nuclear physics.

2. Zhang Heng

When Zhang Heng was young, he was curious about why the ground sometimes shook and how people could predict earthquakes. This curiosity drove him to study the natural world and invent the first seismoscope in 132 CE. His device could detect earthquakes from far away and showed the direction of the tremors. Zhang Heng's invention was a groundbreaking achievement in ancient science and demonstrated the power of curiosity in solving real-world problems.

背景知识

1. 艾萨克·牛顿是英国科学家, 近代科学之父。牛顿最著名的贡献之一是万有引力定律。传说一个苹果从树上掉下, 激发了牛顿对重力的思考。他认为物质之间存在一种相互吸引的力, 物体质量越大, 引力越强。地球的引力使苹果向下掉落, 而不是飞向空中。这一发现奠定了经典力学的基础。
2. 阿基米德是古希腊数学家、物理学家、工程师。阿基米德原理指出, 当物体浸入流体中时, 会受到向上的浮力, 其大小等于所排开流体的重量。若物体完全浸没, 则排开体积等于物体自身体积; 若部分浸没, 则排开体积为物体浸没部分的体积。
3. 钱学森是我国近代力学事业的奠基人之一, 也是我国系统工程理论与应用研究的倡导者。他为我国火箭、导弹和航天事业的创建与发展作出了卓越贡献, 并在空气动力学、航空工程、喷气推进、工程控制论、物理力学等技术科学领域取得了许多开创性成就。

A3, Update my to-do list Chongqing then and now

Have you been to Chongqing? It is known as the “mountain city of China”, because the city is built on mountains. But today, it is also known as the “bridge capital of China”. Why? To answer the question, we need to learn about the past and present of the city.

Many years ago, Chongqing looked very different. High mountains and wide rivers made the city difficult to get to. And in the city people had to climb mountains or use boats to get from one place to another. It was a hard life.

In 1958, things began to change. The government decided to build a long bridge across the Jialing River. This bridge helped connect the areas on either side. The number of bridges grew fast. Now Chongqing has more than 14,000 bridges and deep tunnels.

Today, Chongqing has become a modern international city. Bus stops, underground stations, highways and bridges are everywhere. Tourists from all over the world come to Chongqing and enjoy their stay here.

Life in 19th-century Britain

It was the best of times; it was the worst of times.
— Charles Dickens

The 19th century saw great changes in Britain. Industry grew fast and more jobs were created. Progress in technology made travel and communication much easier. The lives of ordinary people also changed dramatically, both for the better and for the worse.

5 Transport

At the beginning of the 19th century, there were no buses or railways in London. Ordinary people walked to work and rarely travelled far from home. Over the next few decades, horse buses and railway trains became popular. The development of public transport brought new chances for travelling, carrying goods and developing businesses.

Living conditions

Another major change was the growth of cities. Many people moved from the countryside into fast-growing cities. Although there were more new chances in the city, living conditions there were unpleasant for most people. Large families with five or six children lived in one or two rooms. Few homes had a bathroom with a toilet, bath, or even running water. The conditions outside

conflicts of 19th-century Britain: there were chances as well as challenges at that time.

2

(1) Transport:

Travelling around Britain today is easier and faster than it was in the 19th century. Many families own private cars. People drive cars or use public transport to go from place to place. There are different forms of public transport in Britain. For long-distance journeys, people take trains, coaches and planes. For short-distance trips, they use the underground, buses and taxis. Some may also choose to ride a bike. As in China, there are many useful transport apps and websites.

(2) Living conditions:

People have better living conditions in Britain today than in the 19th century. Roads and streets are wider and cleaner. Air and water quality has been greatly improved. Most people live in modern homes with a bathroom and they have many kinds of machines to help with housework.

(3) Life of children:

All children in Britain need to receive an education today. There are no longer child workers.

板块内容说明

本单元的语法重点是让步状语从句 (Adverbial clauses of concession)。

活动 1

- **教学要点:** 活动 1 旨在帮助学生在理解句子意思的同时, 关注让步状语从句的结构和意义。教师可引导学生关注句中蓝色部分 (由 *although* 和 *though* 引导的从句) 的语言形式及其出现的位置, 以及句子两个组成部分之间的语义联系。

如学生在回答第一个问题时有困难, 教师可以用一般疑问句来引导学生: “Do the two parts show similar or opposite ideas?”

如学生在回答第二个问题时有困难, 教师可以换一种提问方式: “What words are used to connect the two parts of each sentence here?”

- **备选活动:** 请学生观察 *although* 和 *though* 的位置, 它们出现在句首和句子后半部分时, 句子的成分有何差别。可以分成句 (1) (3) 和句 (2) (4) 两组, 询问学生这两组句子有何不同 (*although* 和 *though* 位置不同, 且当其位于句首时, 需要用逗号)。详见学生用书上的语法附录 (Grammar file, P130)。

参考答案

1

In each sentence, the two parts show a contrast or an unexpected situation./ The second part shows something surprising or something different from the first part. They are connected by “although” or “though”.

Or: They should sell it. The pocket watch is very old although/though it works well.

活动 2

- **教学要点:** 活动 2 旨在帮助学生在完成活动 1 的基础上总结语法规则, 根据上面的句子, 归纳让步状语从句表达的意义, 并借助学生用书上的语法附录 (Grammar file, P130) 深化理解。

参考答案

2

- ☒ express a contrast between ideas
- ☒ show something unexpected

活动 3

- **教学要点:** 活动 3 旨在帮助学生初步运用让步状语从句, 在具体情境中重点练习使用让步状语从句来表达观点。另外, 可以引导学生关注 *although/though* 让步状语从句的位置, 即让步状语从句可以出现在主句前或主句后, 但当其位于主句前时, 需要用逗号隔开。

如学生直接完成该活动有困难，教师可引导他们分步骤完成任务。先给出建议和简单的理由（写建议句和主句），如 “They should keep it. It works well.”，然后用 *although* 或 *though* 连接哈利和曾祖母说的话，扩充理由句，完成让步状语从句。

参考答案

表达观点。首先，请学生结对，选择正方 / 反方观点（have more fun vs. not have more fun）。然后，每位学生根据自己选择的观点，在表格中写出 1—2 条理由来支持该观点。最后，模仿活动 4 中的对话形式和步骤，A 同学先提问，B 同学作出肯定的回答并给出理由，随后 A 同学使用让步状语从句表达相反的观点。

A: My mum always says children today have more fun. Do you think so?

B: Yes, I think we have more fun today. You see, travel is much easier today. We can go to different places and enjoy the views there.

A: Although we can go to different places today, travel isn't as fun as before because we find out everything online ahead of time and there are no surprises left.

评价建议

教师可根据学生完成每个活动的实际情况，随时调整教学进度和方式。可从语法形式和语法意义两个方面进行评价。语法形式上，关注学生是否正确使用了 *although* 或 *though* 引导的让步状语从句，特别关注主从句之间是否应该使用逗号的问题，以及学生是否错误地添加了 *but* 一词。语法意义上，关注学生是否正确掌握了让步状语从句的意义，即表达对立的意思或出乎意料的情况。最后，通过学生完成活动 4 的表现评价其学习成效，重点关注学生是否使用了让步状语从句表达相反的观点，以及是否针对对话主题进行了有效的观点表达并以符合逻辑的理由支撑等。

New for old

Modern technology has brought ancient books back for new readers. A team from a university in Tianjin has used scanners to make digital copies of more than 20,000 ancient books. The most recent book is over 70 years old and the oldest more than 300 years old.

Laser[®] technology is used to create 3D digital models for important old buildings. One success story has been the Kasubi Tombs[®] in Uganda. A digital copy of the tombs was made before a fire destroyed them. This helps rebuild the tombs.

Museums around the world are using AR (augmented reality) to bring ancient objects to life. A museum in Paris held a special AR exhibition in 2021. Visitors could come face-to-face with digital animals that no longer exist in the real world.

We may also create 3D digital models for some famous old wooden buildings in China because they may easily get fire.)

③ What digital animals do you want to come face-to-face with in an AR exhibition? (I want to come face-to-face with dinosaurs because I think it will be an interesting and unforgettable experience to see these amazing giant creatures.)

1. The dynamic digital scroll of *Along the River During the Qingming Festival*

The famous ancient Chinese painting has been brought to life through digital technology. In 2010, a dynamic digital version of this painting was created for exhibit in the China Pavilion at the Shanghai World Expo.

2. The “Digital Dunhuang” project

The idea of digitalising Dunhuang was first put forward in the late 1980s. So far, the project has completed the digital collection of about 300 grottoes. We can get a glimpse of the beauty of Dunhuang by visiting the official website of the project.

背景知识

1. 数字化对于古籍的保护、利用和传播具有重要意义 (Digitalising ancient books helps protect, use and share them widely.)。在保护层面,数字化有助于实现古籍的永久保存;在利用层面,数字化有助于搭建古籍全文数据库,实现全文检索和数据分析等功能;在传播层面,数字化打破了空间限制,以互联网等形式,使珍贵的古籍走近普通大众,让更多人共享古籍资源。
2. 卡苏比王陵是乌干达王国时期的王家陵园,建成于 1882 年,被乌干达人视为圣地。2010 年 3 月 16 日,卡苏比王陵失火,主建筑遭到严重破坏。随后,这处遗产地被列入《濒危世界遗产名录》(List of World Heritage in Danger)。该遗址于 2023 年夏顺利完成重建,目前王陵已恢复到理想的保护状态,并从《濒危世界遗产名录》中移除。
3. AR 技术常用于博物馆展览中,观众可通过手机或 AR 眼镜,将虚拟信息叠加于展品上,如复原古迹、展示文物历史场景等,从而获得沉浸式体验。AR 技术也可解决传统教学中的难点。例如在数学课上,可动态展开立方体表面,使其呈现为平面图,或者透视立方体的内部结构;在地理课上,可演示火山喷发、板块漂移;在科学课上,可将教室的天花板变成星空等。

Section E Our changing communities

>>Project

子话题说明

项目探究板块围绕“我们社区的变迁”(Our changing communities)这一子话题展开,旨在引导学生结合本单元所学,通过小组合作,选择一个感兴趣的社区,以线上(网络搜索)和线下(访谈、参观、阅读书籍、杂志或报刊资料)等不同方式搜集整理资料,总结和展示该社区的今昔对比,以回应单元大问题。在活动中,学生将感知社区的变迁和其对生活的影响。教师应引导学生客观辩证地看待社会的发展和变革,初步培养他们的社会调研能力。

教学提示

- **教学要点:** 教师可引导学生讨论、回顾单元各板块内容,激发其对单元大问题的深入思考。组织学生分小组讨论,选择自己生活的社区、学校附近的社区、曾实地游览过或在网上关注过的某个感兴趣的社区,进行线上或线下调研。如果所选社区不在本地,无法进行实地调研,可采用二手调研资料,如新闻报道、纪实报告等(含类似 Step 2 访谈形式的内容),结合其他查找到的资料,总结该社区的主要变化,并在课堂上进行展示。

注意:根据学情,调节任务的难易程度。如学生接受程度较好,可适当提高要求。可引导他们多维度关注社区的变化,如建筑物、绿化、社区食堂、医院、图书馆、街道、商业配套等,也可以关注居住人群、社区文化、社区氛围等。还可引导他们多角度分析同一变化带来的影响(如某些变化带来的影响可能有利有弊)。

Host: Hello, everyone! Welcome to our programme. I'm Luna. Today we're speaking to Jack, the lead singer of Lucky Island. Hello, Jack!

Jack: Hi, Luna!

Host: Jack, congratulations! That was a great performance you gave last week. How did you get so good?

Jack: Thank you. Well, you know we've played together for fifteen years.

Host: What has helped you stay together for so long?

Jack: A shared passion for music, of course. Also, after such a long time we all understand each other very well. Jimmy controls the rhythm. He just needs to look at Fran and

Fran will know he needs to speed up or slow down.

Host: As the lead singer, are you pulling all the members together?

Jack: Well, you could say that. But each role is important in the band and we depend on each other. Before we have a performance, we spend a month or two practising together. So on stage it's like we are one.

Host: Do you also spend time together off-stage?

Jack: A lot! And such togetherness makes us feel like a family. Yes, we have some problems but we care for each other.

Shining together: A team success

Ms Jones's class was going to put on a play, *Alice in Wonderland*. The students took turns reading lines to the teacher, hoping to get their favourite parts.

The next day, they eagerly checked the noticeboard to see which parts they got. Shirley was disappointed that her dream role, Alice, had gone to Ella. Three boys were also unhappy because they got no parts to play but the job of helping out backstage with Shirley.

"Why do we have to do all the hard work while they get all the attention?" complained Jerry. Sam pulled a long face as he felt the same way.

"Come on," said Andy. "Our work is important too, and it can be fun!" He was right. For the next two weeks, they built the sets together and found the work very enjoyable and satisfying.

Finally, the big day arrived. Jerry and Shirley helped with costumes. Andy controlled the lights and sound, and Sam managed the stage curtain. When Ella came on stage, Shirley was not very pleased. Since

Yes. Backstage work is fun. I like making sure everything runs smoothly and seeing the show come together behind the scenes./No. I prefer acting on stage. I enjoy being in the spotlight and hearing the audience cheer for my performance — it's so exciting!

Ella always seemed self-important, Shirley had never liked her. But seeing her act with natural confidence, Shirley thought, "Ms Jones was right. Ella is perfect for the role."

20 The play went really well. As everyone clapped and cheered, Ms Jones invited the backstage helpers onto the stage. Shirley smiled at Ella, "Nice acting!" Ella smiled back and replied, "Thank you for the beautiful sets. They truly made the play very special."

"Our talented actors and hard-working backstage team have shown

背景知识

1. Behind-the-scenes work

Behind-the-scenes work for a play includes many important tasks, such as creating sets, props and costumes, and getting the actors ready with make-up. It also means organising practice sessions for actors to rehearse their lines and movements. The team sets up lights and sound to make sure everything works during the show. Stage managers remind actors to come on stage and handle scene changes. Hanging up posters and selling tickets help bring in an audience. Managing schedules and solving problems quickly are also part of the work. All of these jobs are important, even though the audience can't see them.

2. *Alice in Wonderland*

Alice in Wonderland, written by Lewis Carroll (1832—1898), is a famous children's book. Known for its fun language and big ideas, the story is enjoyable for both kids and adults. The story follows a young girl named Alice, who falls down a rabbit hole into a magical, strange world called Wonderland. There, she meets odd and playful characters like the White Rabbit, the Cheshire Cat, the Mad Hatter and the Queen of Hearts. The story is about Alice's adventures in this unpredictable world, where logic doesn't always apply, and things aren't as they seem. Throughout her journey, Alice grows and learns about herself, discovering that Wonderland is a place where the impossible can happen. The story explores themes of curiosity, imagination and questioning the rules of the adult world.

The basketball match began — the Yellows against us, the Reds. They took an early lead. As they scored more points, we started to feel down.

Our fans waved the red flags to cheer us on. Our captain encouraged us to keep working together as a team. When someone missed a shot^①, another player would quickly save the ball and score. This gave us hope and we played harder. Everyone followed the coach's game plan, passing to each other and looking for the right moment to shoot. We won nine points in a row. The Yellows became worried, and some started playing on their own.

In the end, we won a narrow victory because we trusted each other and worked together as one.

- **语篇说明：**第一则短文介绍了大雁的V形飞行与团队合作。第二则短文介绍了蚂蚁的团队协作与社会智慧。第三则短文介绍了狼群通过嗥叫养成团队协作的习惯。
- **备选活动：**根据学情，激发学生的阅读兴趣，拓展其阅读视野，进一步深化其对单元主题的理解。

(1) 预测：请学生读前浏览图片，预测与主题相关的信息，激发学生的兴趣。

- ① Why do wild geese fly in a V shape when travelling long distances? (*To save energy and take turns leading.*)
- ② What is a group of ants doing? (*Working together to find food and build their nest.*)
- ③ Why is a group of wolves staying together? (*To hunt, protect their home and care for their young.*)

(2) 理解：请学生阅读语篇，通过问题引导学生发现大雁、蚂蚁和狼的特性。

- ① What happens when the lead wild goose gets tired? (*Another goose takes its place.*)
- ② What is special about ants' ability to lift things? (*They can lift things that are much heavier than themselves.*)
- ③ What is the role of each member in a wolf pack? (*Each member helps hunt, protect and care for the pack.*)

Teamwork in nature

Some wild geese fly in a V shape when flying long distances. This helps them save energy and fly more easily. When the lead wild goose gets tired, another bird will take its place. Sharing the leadership^① and watching out for each other make the team work well together.

Ants live in groups called colonies^②. Each ant has its own role in the colony. As well as being able to lift things much heavier than themselves, ants also work together to carry larger pieces of food. They can also work as a team to solve problems.

Wolves live in packs^③ where each member has a clear position under the leader. A wolf's howl^④ can be heard from far away. This serves many purposes and can also help build stronger connections within the pack.

Read and think What have you learned about teamwork from these animals?

① leadership 领导地位 ② colony (蚁) 群 ③ pack 一群 (动物) ④ howl (狼、狼等的) 嗥叫

(3) 思考：鼓励学生深入语篇信息，展开思考，分析大雁、蚂蚁和狼合作的原因。

- ① How does sharing leadership help the geese work well together as a team? (*Sharing leadership helps geese save energy by taking turns leading.*)
- ② How do ants work together as a team in their colony? (*They share tasks like finding food and building nests.*)
- ③ How does a wolf's howl help the pack? (*A wolf's howl helps the pack stay close and talk to each other from far away.*)

(4) 拓展：提供补充阅读材料，鼓励接受程度较好的学生自发查找大自然中或生活中的团队合作的素材，为后续 Project 做好学习准备。

- ① Do you know other animals or insects that work together? (*Yes, such as bees and dolphins.*)
- ② How do they work together? (*Bees work together in a hive. They collect nectar,*

make honey and protect their queen. Dolphins hunt in groups. They catch fish together and protect each other.)

补充资料

1. Dolphins

Dolphins often work together to hunt fish. They can form a circle around a school of fish, herding them into a tight ball. Then, they take turns swimming through the ball to catch the fish. This teamwork makes their hunting more effective.

2. Elephants

Elephants are known for their strong social bonds. Older and more experienced females lead the herd. They work together to protect and raise their young. If a calf is in danger, the herd will gather around it to protect it from danger. They also help each other find water and food, especially during tough times.

3. Meerkats

Meerkats live in groups and take turns keeping watch for danger while others search for food. If a threat is spotted, the meerkat on watch will warn the group, allowing them to quickly take cover.

4. Bees

Bees work together in a hive to make honey, care for their queen and protect the hive. Each bee has a specific job, like collecting flower nectar, tending to the young or guarding the hive. Their teamwork keeps the whole colony alive.

语言注释

- **wolf** (pl. wolves) *n.* a large wild animal of the dog family, that lives and hunts in groups 狼
A wolf hunts in packs for food.

背景知识

1. 大雁以 V 形编队飞行，借助前方大雁产生的气流来减少阻力、节省能量。当领头的大雁感到疲惫时，其他大雁轮流接替，保持队形。这种轮流领导和协作的方式展现了大雁的团队精神，确保了迁徙的高效性和雁群的和谐。
2. 蚂蚁以其独特的社会结构和集体智慧而闻名。生活在高度组织化的蚁群中，每个成员都有其特定的角色。它们能协力举起重于自身数倍的物体，展现出团队协作能力。在寻找食物、建造巢穴或抵御外敌时，它们协同作战，共同解决问题，体现了集体智慧。
3. 狼群成员在头狼的带领下分工明确，狼嚎不仅用于呼唤，还用于领地标记、召唤同伴和协调狩猎等。狼嚎强化了成员之间的联系，增强了集体认同感。

这里呈现的是英国科幻作家阿瑟·C. 克拉克的经典名言，旨在通过该名言帮助学生掌握句子重读的规则。一般情况下，重读句子中的实词，如名词、动词、形容词和副词；弱读句子中的虚词，如连词、冠词、介词、助动词和情态动词等。也可根据句意，重读句子中需要强调的信息，教师可增加这方面的典型例子作为拓展内容。

此外，需要注意的是，在这段经典名言中，为了强调 impossible 与 possible 之间的对比，单词 impossible 的重音发生了前移，重读了第一个音节。

Host: Hi, Jerry! How do you think technology will change future entertainment?

Jerry: Well, first, wearable tech will be super powerful. We'll listen to music from computer chips in sunglasses, hats, or even our brains. With VR contact lenses, we can enjoy live concerts at home, feeling like we're really there.

Host: That's amazing! I can attend any live event anywhere I want.

167

Jerry: Absolutely! You can also interact with digital twins of other people. Imagine playing ping-pong in your room with a friend who's not physically present. Your friend's digital twin will look, speak and move exactly like the real person. You'll exercise and have fun just as in real sports.

Host: Wow, that's fantastic! It's like bringing people together in a whole new way.

Jerry: It is. Digital human and AI technologies can even bring people from the past back to life, and allow anyone to make their own films starring themselves and their favourite actors.

Host: Well, it sounds both exciting and a little disturbing. We won't be able to tell what is real and what isn't.

Jerry: You're right. The great thing about the future is that no one really knows what will happen.

- **听力策略:** 本课听力策略为理解说话者态度 (Understanding a speaker's attitude), 通过重点关注说话者的用词和语调, 判断说话者态度。

Understanding a speaker's attitude: The attitude of a speaker tells us how he or she thinks and feels about somebody or something. We can identify a speaker's attitude by paying attention to:

 - ① **Word choices:** The speaker's choice of words can show their attitude. Positive language suggests a positive attitude, while negative language suggests a negative attitude. For example, words like *amazing*, *fantastic* or *exciting* can show a positive attitude, while words like *disturbing*, *terrible* or *bad* can show a negative attitude.
 - ② **Tone:** The speaker's tone of voice and the way they say their words can help you understand their attitude. For example, a speaker using a happy and upbeat tone is likely to be expressing a positive attitude, while a speaker with a flat or angry tone is likely to be expressing a negative or indifferent attitude.

- **教学要点:** 教师应帮助学生通过关键词理解说话者的态度。
- **备选活动:** 邀请几位学生谈谈自己对采访中提到的未来娱乐方式的看法, 其余学生则需听并判断他们的态度, 且说明判断的理由。

① How do you like the future entertainment mentioned in the interview?

(Student A: With VR, we will be able to feel like we're at concerts or sports events, even if we're at home. It sounds really convenient.

Student B: I think it sounds worrying. If people spend too much time in virtual worlds, they might forget how to have fun in real life and neglect important things in real life, like family and friends.)

② Do Student A and Student B have a positive or negative attitude towards future entertainment? Why?

(Student A has a positive attitude towards future entertainment because he uses positive language like "convenient".

Student B has a negative attitude towards future entertainment because he uses negative language like "worrying".)

Lin Dong is reading an excerpt^① from a science fiction novel.

C1 Predicting Look at the title and the picture below, and discuss: How will life in 2095 be different?

C2 Read the excerpt.

While visiting the Museum of Natural History, Eric (the narrator) accidentally sends himself and his friend Sam from the year 1995 into 2095 with a time-travel guide from his uncle. As this excerpt begins, they are running away from a security robot, and Uncle Joe time-travels to the future to help them.

A journey to 2095

The museum doors opened, and we rushed out. The street was full of people floating about one foot above the ground. Buildings towered into the clouds. Countless cars and lines of people snaked around high above us.

"Look! Everyone has a small disk on them," said Sam. "It must be the antigravity disk^②. People have figured out how to fly!"

"Stop talking! Run!" I shouted, seeing the robot coming our way. Just then, Uncle Joe appeared, along with two girls looking strangely familiar.

"Come with us," said one girl. She put flying disks on us, and we followed her to a building unbelievably tall. The door opened at her voice. She put her hand over a shining handprint on the wall, and in five seconds we were brought to her home about five miles above the city.

- **教学要点:** 活动 1 旨在帮助学生在理解每个句子整体意义的基础上, 分析 if 和 unless 引导的条件状语从句所表达的含义和功能, 理解主句与从句之间的逻辑关系。

- **备选活动:**

(1) 通过问题引导, 帮助学生关注条件状语从句的意义。教师可先利用活动 1 的第一个例句情境 (例句选自 B 板块对话中林东所说的话) 向学生提问。

① How does Lin Dong want to travel?
What does he say? (*If I visit Egypt in the future, I'll circle around the pyramids in a jetpack.*)

活动 2

- **教学要点:** 活动 2 旨在帮助学生在完成活动 1 的基础上总结语法规则, 根据活动 1 中的句子, 归纳条件状语从句的形式、意义和用法。

- **备选活动:**

(1) 请学生自行对照活动 1 中的各个句子和语法规则的选项, 总结归纳出条件状语从句的语法规则, 或请学生分组对照更多的条件状语从句例句, 并通过问题引导学生归纳语法规则。

- ① What do conditional clauses describe? (*The situations that are likely to happen in the future.*)

3) What will happen if people don't stop cutting down trees?

The forest will disappear if people don't stop cutting down trees/unless people stop cutting down trees.

活动 4

- **教学要点:** 活动 4 旨在帮助学生在玩接龙游戏的过程中,恰当地运用条件状语从句来描述未来。游戏需要小组合作进行,组内每位学生轮流使用 if 引导的条件状语从句进行造句接龙。第一位开始的学生可以说出任意一句包含 if 引导的条件状语从句的句子(如: If I become an astronaut, I will fly to Mars.),下一位接龙的学生需要说出一个新句子,该句同样包含 if 引导的条件状语从句,并且要将前一人所造句子的结果作为新句子的条件(如: If I fly to Mars, I will plant a tree there.)。教师提醒学生造句时,需要保持句子的逻辑性和合理性。
- **备选活动:** 请学生延续范例接龙造句,如: If I plant a tree on Mars, I will water it regularly. If I water it regularly, it will grow into a big tree. If it grows into a big tree, I will invite my friends to come and see the tree. 等。教师可引导学生注意倾听同伴发言,并指出可能出现的语法或逻辑错误。

子话题说明

写作板块围绕“我对未来的看法”(My view of the future)这一子话题展开,学生以论坛回帖的形式,写一篇观点类文章,表达自己对未来生活的看法,并举例说明理由。

D1

- **语篇说明:** 该论坛帖子来自某个青少年论坛 (TEEN-Land Forum) 中的八年级群组 (Group: 8th-graders), 主要用于与世界各地青少年交流各自对未来的看法。主帖提出了对未来生活的畅想, 并向大家征集看法。林东的回帖内容是一篇观点类文章, 分为三段。第一段直接表达了他对未来的看法, 即未来生活会更好, 以此回答主帖的问题。第二段列举了三个原因支撑他的观点, 分别是机器人将在许多方面提供帮助、科学家将发现保持健康的新方法以及未来多样的旅行方式, 每个原因后都有具体的举例说明。第三段重申观点, 体现了他对未来积极乐观的态度。
 - **教学要点:** 活动定位是写前思考。教师引导学生通过快速浏览范文内容, 关注范文大意 (回答 D1 中的问题)。
 - **备选活动:** 引导学生回顾学生用书八年级上册第二单元的写作策略, 重温观点类文章的特征 (three main parts: introduction, body and conclusion) 和要素 (opinion, reasons, examples), 组织学生划出观点, 圈出理由, 用括号标记出例子。也可以用提问的形式引导学生观察论坛帖子内容和结构。

Group: 8th-graders

TEEN-Land

It's fun to imagine what the future might look like. Will it be better, worse or just different? What is your opinion?

In my opinion, life will be better in the future.

I feel positive about life in the future for three main reasons. First, robots will help us in many ways. We won't need to clean the house or cook meals because robots will do all the housework. What's more, scientists will find amazing ways to keep us healthy. They will find cures for diseases such as cancer. The most exciting part is future travel. It is likely that everyone will be able to explore the deepest oceans or go into space.

In short, I think we will have a more convenient, healthier and more colourful life in the future.

D2 Prepare Circle the pronouns used in the post. Do they agree in person?

TEEN skill Avoiding shifts between different persons

In writing, make sure the pronouns agree in person. Don't mix them. In the example on page 95, since we use first person to refer to people in general (our life instead of people's life), we must continue to use first person (us and we) in the following part, not second person (you) or third person (people and they).

- ② How many reasons does Lin Dong give? (*Three.*)
- ③ What are the reasons? (*The first reason is that robots will help us in many ways. The second reason is that scientists will find amazing ways to keep us healthy. The third reason is future travel will be exciting.*)
- ④ What examples does Lin Dong use as supporting details? (*The first example is that we won't need to clean the house or cook meals because robots will do all the housework. The second example is that scientists will find cures for diseases such as cancer. The third example is that it is likely that everyone will be able to explore the deepest oceans or go into space.*)
- ⑤ What is Lin Dong's conclusion? (*We will have a more convenient, healthier and more colourful life in the future.*)

- **教学要点：**活动定位是写前准备。教师组织学生圈出范文中所有的代词，并说明代词所指代的内容。学生通过识别代词和指代关系，提高叙述视角人称一致的意识。
- **写作策略：**本单元写作策略是避免叙述视角人称转换（Avoiding shifts between different persons），即代词应该与其所指代的词在人称上保持一致，避免混淆和误解。
- **备选活动：**结合范文增加一些句子，其中有指代错误，请学生找出前后人称不一致的代词并进行改正。
 - ① This will give them more time to enjoy their hobbies and spend time with family.（此句加在第一个理由及例子的最后，正确的句子应该是：This will give us more time to enjoy our hobbies and spend time with family.）
 - ② The cures for diseases will help him live longer.（此句加在第二个理由及例子的最后，正确的句子应该是：The cures for diseases will help us live longer.）
 - ③ She will be able to explore the world and enjoy herself in new ways.（此句加在第三个理由及例子的最后，正确的句子应该是：We will be able to explore the world and enjoy ourselves in new ways.）

A huge, strange craft, called Rama, appears in space. Humans visit and find secrets from another world. But who built Rama and where are they? And why is Rama so close to the Earth? These are questions that readers must answer themselves.

The Descendants of Mars by Zheng Wenguang (1984)

A group of pioneers land on Mars with the hope and strong will of turning it into a home for mankind. The living conditions are tough, with sandstorms, cosmic radiation^②, black holes, lab explosions, and more. In the face of these challenges, will they ever make it?

For example, we might explore space like in Rendezvous with Rama or live on Mars like in The Descendants of Mars./No, our future might not be exactly like these books. Twenty Thousand Leagues Under the Sea was written in the 1800s, and Rendezvous with Rama was written in the 1970s. The authors couldn't predict today's world, so their ideas about the future are outdated. Our future will be shaped by new ideas and technologies.*)

A chapter to start with

- **语篇说明：**本文节选自美国作家琳达·休·帕克所著的《漫漫求水路》。这是一部青少年历史虚构小说，故事围绕两条主线展开叙述：一条始于1985年，讲述了11岁男孩萨尔瓦·杜特原本生活在苏丹南部（现南苏丹）的一个村庄，因内战爆发被迫逃离家园；另一条始于2008年，讲述了11岁的苏丹女孩尼娅，每天需徒步8小时往返于家和浑浊的池塘间取水。本文的三个部分均选自萨尔瓦的故事线，分别来自原书的第2、10和12章。

【节选情节提要】（1）第一选段发生在萨尔瓦逃离发生战争的村庄途中。他已经跑得精疲力竭，又走了好几小时，直到天黑。他跟着人群边走边想：这是要去哪里？我还能再见到家人吗？（2）第二选段同样发生在逃亡途中，三名妇女将珍贵的饮水分给路边几位奄奄一息的人，救了他们的命，但大家顾不上埋葬已死去的人，只能将他们遗弃在荒漠之中。（3）第三选段讲述了萨尔瓦想起叔叔的话——他们的村庄遭到攻击并被烧毁，他瞬间意识到家人可能已经不存在了。如今，他只能依靠自己。他如同置身于深渊，一个充满虚无与绝望的深渊。

【全书情节提要】1985年的一天，萨尔瓦正在学校上课，突然外面响起了砰砰的枪声。老师让大家赶快往树林里跑，不要回家，因为战争会打到村庄里。萨尔瓦朝着远离家的方向拼命跑起来。……萨尔瓦和其他逃难的人群汇合后，漫无目的地流浪着。一个多月后，萨尔瓦与叔叔朱伊尔重逢。后来他们到达了尼罗河，乘着用芦苇建造的小船划到河中一座渔民居住的小岛。在那里待了一段时间后，他

A chapter to start with

A Long Walk to Water is a short novel written by Linda Sue Park and published in 2010. Park used this book to support a non-profit organization^①, Water for South Sudan.

The story is about two main characters: Salva and Nya. In 1985, Salva gets separated from his family during a war. He walks for weeks to find safety in Ethiopia^②. After living there for six years, he goes on a tough journey to Kenya^③ with other lost boys. Nya's story takes place in 2008. She spends her days fetching water for her family. In the end, they meet during a well-digging project.

He ran until he could not run anymore. Then he walked. For hours, until the sun was nearly gone from the sky.

Other people were walking, too. There were so many of them that they couldn't all be from the school village; they must have come from the whole area.

As Salva walked, the same thoughts kept going through his head in time with his steps. Where are we going? Where is my family? When will I see them again?

(Jumping ahead in the story)

Sure enough, there were now three women giving water to the men on the ground. As if by magic, the water made them feel alive again. They were able to get up onto their feet and join the group as the walking continued.

1 How heartbreaking!

But their five dead friends were left behind. There were no tools with which to dig, and besides, burying^④ the dead men would have taken too much time. Salva tried not to look as he walked past the bodies, but his eyes were drawn towards them. He knew what would happen. Before long, these bodies will be reduced to nothing more than bones^⑤. He felt sick at the thought of those men — first dying in such a terrible way, and then having even their dead bodies eaten by animals.

2 be reduced to sth

If he were older and stronger, would he have given water to those men? Or would he, like most of the group, have kept his water for himself?

3 What would I do in a similar situation?

① non-profit organization 非营利机构 ② Ethiopia 埃塞俄比亚 ③ Kenya 肯尼亚 ④ bury 埋葬 安葬 ⑤ bone 骨头

们到达河对岸，开始穿越阿科博沙漠（the Akobo desert）的艰难之旅。然而，就在他们即将走出沙漠时，遇到了一群士兵。士兵抢走了他们的物资，并杀害了叔叔。心碎的萨尔瓦跟随队伍进入埃塞俄比亚，在那里的难民营待了六年，埃政府崩溃后，又被迫前往肯尼亚，在那里的难民营待到二十二岁。后来，萨尔瓦被一个美国家庭收养，上了大学，找到了还活着的家人，并在美国家庭的帮助下成立了公益组织，在苏丹建造了数百口水井。

【文本分析】本文描写了少年萨尔瓦在苏丹内战中逃难的经历和心理活动，反映了战争的残酷以及极端困境中的人性光辉与挣扎。特别是对萨尔瓦一系列心理活动与情绪的描写十分真实细腻，因而打动人心，如“Where are we going? Where is my family? When will I see them again?”反映了他的孤独无助与迷茫；“Salva tried not to look ...” “He felt sick at the thought of those

212

men ...”则展现了他的悲天悯人与善良；“If he were older ... kept his water for himself?”是他在道德困境中严肃的自我追问，引人深思；“He felt as though ... the black despair of nothingness.”描写了他想到亲人已去时巨大的孤独与虚无感，引人共情。在语言方面，一些短句的使用凸显了主人公旅途中的疲惫困苦、悲伤绝望。如“Then he walked. For hours, until the sun was nearly gone from the sky.”“He knew what would happen.”“His family was gone.”“He was on his own now.”等。

- **教学要点：**教师需引导学生通过阅读小说节选，培养整本书阅读的习惯，并学习掌握和熟练运用在阅读过程中记笔记的技能。

在目标技能方面，教师可指导学生在通读节选文本的过程中逐条学习和练习使用不同类型的阅读笔记。如：

- ① 当读到五个人被弃尸荒野的情景时，可以写下自己的感受（How heartbreaking!）。
- ② 遇到新的重要语言点时，可以进行标记（如 be reduced to sth）。
- ③ 当读到萨尔瓦的扪心自问时，也可以思考自己在类似情况下是否会舍己救人（What would I do in a similar situation?）。
- ④ 当读到陌生的地名如 Itang 难民营时，可以查阅并记录相关信息（如 about 300 km from South Sudan），以便更好地理解主人公的处境。
- ⑤ 在阅读完一定篇幅（某一章或一页）后，可用简练的话总结内容情节（如 Salva crossing the desert to a refugee camp in Ethiopia）。在结合书中示范进行分析讲解后，请学生练习使用这些不同类型的笔记，并进行同伴交流。

在语言方面，教师可结合学生的语言点笔记总结要点，并对于共性的难点适当进行讲解，如表示对过去情境进行推断或假定的虚拟语气表达：“There were so many of them ... they must have come from the whole area.”以及“If he were older and stronger, would he have given water to those men? Or would he, like most of the group, have kept his water for himself?”

在文本内容方面，教师可通过提问、组织学生讨论等方式，引导学生理解文本的基本情节，鼓励学有余力的学生进一步思考，如：

- ① What was wrong with the men on the ground? (*They were dying of thirst.*)
- ② Why were Salva's eyes drawn to the bodies, even though he tried not to look? (*He felt sad and worried about them, so he couldn't help looking.*)
- ③ How did he feel about the dead men? (*He felt very sad. He was also worried about them being eaten by animals.*)
- ④ Would he have offered water to those men if he were older and stronger? (*He thought about it, but I don't know for sure. He might have wanted to help them.*)
- ⑤ Could you imagine an eleven-year-old living without his family in a foreign country? (*It would be very hard and lonely for an 11-year-old to live without family in a new place.*)

在此基础上，结合书上读后活动，教师指导学生完成整本书阅读，并分享阅读心得。

• 备选活动：

(1) 为激发学生对整本书的阅读兴趣，教师在课上完成节选内容的教学后，请学生讨论并预测故事的后续发展，从而引发他们对苏丹内战历史及少年萨尔瓦命运的关注。也可通过任务驱动的方式来激发其阅读兴趣，如：请学生参照小说中的手绘地图，结合原文，追踪萨尔瓦的足迹，总结和记录不同地点发生的主要情节，绘制一份读书小报，并和同伴交流分享。

(2) 通过多种方法引导和辅助学生更好地完成整本书阅读的任务。

① 向学生提供按章节梳理的语言点，帮助他们扫除阅读障碍。

② 将全书分为九周的任务，要求每周完成两章的阅读(约12页)。

③ 将全班分为若干个阅读小组，由学有余力的学生带领同伴共同阅读，并以小组为单位进行阶段性阅读汇报。

(3) 针对全书提出更多问题，引导学生进行深入阅读和思考(参考“补充资料”)；鼓励他们主动提出更多问题，整理和分享阅读笔记，撰写读书

A discussion guide to *A Long Walk to Water*

1. In Chapter 1, we find out that the war began two years before the events described. Can you share what else you've learned about the war as you read through the rest of the book? (*The conflict arose between the government in the north and southern rebels. The war displaced millions of people, including those from Salva's village. Many died from violence, disease, or famine.*)
2. How do Uncle Jewiir's words encourage Salva to guide 1,500 lost boys on their dangerous journey to Kenya? (*Uncle Jewiir teaches Salva to take things step by step, focusing on the immediate goal (e.g. walking to a certain tree) rather than the overwhelming big picture (e.g. a long walk to a foreign country). This mindset helps Salva cope with the long and hard journey. After Uncle Jewiir's death, Salva internalizes this lesson and motivates the lost boys by breaking the journey into manageable parts — one day at a time.*)

3. Can you describe the culture shock Salva went through after being taken in by an American family? Please point out specific examples from the book. (*When Salva comes to the U.S., he experiences a lot of culture shock. In a supermarket, he's overwhelmed by choices, never having seen so much food. He's surprised by things like electricity, running water and the cold weather. He also struggles with English idioms and schoolwork.*)

(Answers may vary.)

1

A civil war broke out in Sudan. In search of safety, the people left their homeland and had to cross the Akobo Desert to reach their destination in Ethiopia.

2

Salva's journey was tough and full of challenges. He faced extreme heat, a lack of food and water, physical exhaustion, illnesses, attacks from wild animals and robberies by soldiers. He felt lonely, sad and fearful, constantly worried about his survival, not knowing what would happen next or whether he could ever go back home one day. The refugee camps where he stayed were very crowded and not always safe, and there was not much to eat or use.

3

At the start of his journey, Salva constantly thought about his missing family. He felt lonely, sad, weak and helpless.

When Uncle Jewiir said that after leading the group to the refugee camp, he would return to Sudan to fight in the war, Salva tried to stay strong, telling himself not to act like a baby.

Uncle Jewiir helped him get through the first terrible day in the desert, one step at a time. This experience taught Salva to focus on immediate problems rather than being consumed by fear and worry about the future.

After Uncle Jewiir died, the group whom he had once taken care of became indifferent to Salva, complaining that he was too small and might slow them down. This made him stronger, more mature and independent.

"One step at a time ... one day at a time," he told himself every day and shared the spirit with other boys. He became a great leader and finally led the group to Kenya.

Frankenstein

Frankenstein is an 1818 novel written by English writer Mary Shelley. It tells the story of Victor Frankenstein^①, a young scientist who is crazy about life science. He creates a human-like creature, but then leaves him alone because of his frightening^② appearance. The creature learns to speak and understand human feelings. He is very lonely because people call him a monster^③ and nobody wants to be friends with him. One day, he finds Frankenstein again.

Upon hearing about his little brother's death, Frankenstein is very sad and goes home right away. One day, he and the monster meet at the top of a mountain.

Frankenstein: You monster! How dare you show up after what you've done?

Monster: Calm down, my creator. Listen to my story before you judge me. You don't know what I have gone through.

The monster talks about his experiences all these years. Wherever he went, people misunderstood, feared and attacked him. He hated people and did terrible things to hurt them.

Frankenstein: What do you want from me now?

Monster: I want you to create a wife for me. One who won't be afraid of my ugly face but will understand me, and like me, so that I won't be lonely anymore.

Frankenstein: Never! I will not create another thing like you, and then watch it do the same terrible things you have done! Kill me if you want, but I will not do this!

Monster: But you owe^④ it to me! You gave me life, but then left me all alone in this world to suffer.

A poem to savour

The poem *A Paper Moon* is collected in American poet Annette Wynne's book of poems for children, published in 1919.

In this poem, a child wants to use his/her imagination to create a magical world where he/she can be happy and free. He/She wants to make a paper moon and imagine sleeping on the grass like a gypsy^① child. The poem celebrates imagination and creativity.

A Paper Moon

A paper moon, I'll hang it high
Up in a dark blue paper sky;
Some pretty silvery stars I'll make —
All for the little lone moon's sake;
My bed shall be the evening grass,
Where only fairy people pass;
Where no one sees,
But the breeze
That hurries lightly through the trees;
The sky I'll hang above my head,
When I'm undressed to go to bed;
And so, a gypsy child I'll play
That has no real home to stay.

① gypsy 吉卜赛人

押韵而进行的语序调整，如“Some pretty silvery stars I'll make”的正常语序应为“I'll make some pretty silvery stars”。

补充资料

The poet creates a dreamlike and peaceful setting in the poem. The speaker is a child who uses their imagination to create a magical world where they can play and feel at home. Some key images in the poem include “a paper moon”, “a dark blue paper sky”, “some pretty silvery stars”, “evening grass” and “fairy people”, which together create a quiet and enchanting atmosphere. Peter: Hey, Jane! Do you want to play a game?

Jane: Sure, how do we play?

Peter: I'll say something about water, and you tell me whether it's true, false or — if you think nobody knows for sure — go with “unknown”.

Jane: Got it.

Peter: Here we go. First, when water freezes, it expands by about 9%.

Jane: True! That's why ice floats on water.

Peter: Correct! Now check this out. Water covers 0.07% of the Earth's surface.

Jane: False! We all know water covers over two thirds of the Earth's surface.

Peter: Ding-ding! You're a water expert. By the way, the number is correct by weight. Next, water leaves your stomach about one hour after you drink it.

Jane: Hmm, tricky. I'll go with false.

Peter: Good guess! It leaves much faster, actually. Five minutes on average. Here's more. Almost one third of human bones is water.

Jane: Well ... they do seem dry, but I'll say true.

Peter: You're right. Okay, what about this one? There is no water on Mars.

Jane: Unknown?

Peter: Nope! Actually, scientists found water on Mars.

Jane: Wow! Mars with water. Maybe the aliens are having pool parties.

Peter: What a wild idea! But it's all frozen up there.

A4

Are you buying bottled water because it looks clean and healthy? Actually, tap water is often safer because it's checked more carefully. For example, in England, tap water is tested several times every day, and in 2023, 99.97% of the samples passed the tests.

Some people say bottled water tastes better, but according to blind tests, only 1 out of 10 people can taste the difference between tap water and bottled water.

A bigger problem is the environment. Making one litre of bottled water needs up to 4 litres of water. Plus, making one plastic bottle uses 17 to 35 litres of water. Each half-litre bottle produces 82.8 grams of CO₂ — like driving a car 0.3 kilometres! What's worse, less than 10% of bottles get recycled. The rest stays in our environment for hundreds of years. So next time you buy bottled water, think again! If everyone drinks tap water, we can save billions of bottles every year.

All about water

Do you know how old water is? Believe it or not, water on Earth has been here for billions of years, moving from place to place and changing from one form to another. Thanks to the water cycle, our planet has always had the same amount of water.

Water is everywhere. Surface water, such as oceans and rivers, covers over seventy per cent of our planet. There is more water underground; we call it “groundwater”.

Clean, fresh water is rare. About ninety-seven per cent of the Earth's water is sea water. The rest is fresh water but two thirds is locked up in ice or deep underground. We can reach the other third and most of that is polluted. Only about zero point three per cent of fresh water is left for us to drink.

Water is life. We cannot live without water, but about two billion people on this planet don't have safe drinking water.

Water is useful. We use water in countless ways, drinking it, washing with it, watering plants, making products, and putting out fires with it ...

What else can water be? Explore the museum to find out!

Reporter: Good afternoon, Nate. It’s a pleasure to talk with you. Could you tell us what made you interested in science at first?

Nate: Hello! Well, it all started when I saw a picture of Uranus. It’s the seventh planet from the Sun. That really got me wondering about space, and then I became interested in other scientific topics as well.

Reporter: That’s fantastic! How did your interest in science lead to the creation of your podcast?

Nate: I had so many questions and I wanted answers. So, at five years old, I started a podcast with my dad. We talk about a topic twice a month on a podcast network for kids.

Reporter: Impressive! Could you share with us one of your favourite discoveries from your podcast?

Nate: I loved learning about jellyfish. They are sea creatures and some of them may never die, which I found out during an interview with a famous scientist.

Reporter: That sounds interesting. Lastly, who is your dream guest for the podcast?

Nate: My dream guest is Bill, for he has made difficult science fun for kids! I’d love to interview him and learn even more from the experts.

Reporter: Thank you, Nate, for sharing your interest in science with us. We look forward to hearing more from your podcast in the future.

At just 14 years old, Emma Yang turned her curiosity and love for technology into something amazing. She created a special app called “Timeless”. It is designed to help people with memory problems recognise their family members and remember important events.

When she was young, Emma loved taking things apart to see how they worked. When her

grandmother started having trouble remembering things, Emma wondered how technology could help. She taught herself to code by watching online videos and reading books. After months of hard work, she created “Timeless”. It uses photos to identify people and tell users who the person is. It also helps remind users of special dates.

Emma’s invention has received global success. She believes curiosity is the key to solving problems. “If you’re curious about something, dive in and learn more. You might create something amazing!” she says.

“Why is the sky blue?” “Why do stars twinkle?” We keep asking questions and want to find the answers every day. We’re curious about the world from the day we were born. Curiosity is an inborn ability. Babies prefer to look at new pictures rather than familiar ones. They try to touch objects that they haven’t seen before. Preschoolers play longer with a toy when it’s harder for them to learn how it works. We know that school children ask countless questions. This is how they learn about the world.

Many grown-ups manage to keep their curiosity as they get older. If there is something they don’t understand, they will try to find out by continuous reading and exploring.

In our family, we have made some important rules about the use of smartphones to make sure we have a balanced and safe family life. First, we keep our phones away during dinner so we can talk and share our day with each other. Second, we avoid using phones at least an hour before bedtime. This helps us relax and get a good night's sleep. There are also rules about study hours. During these times, smartphones must be turned off or set to "Do Not Disturb" mode. Lastly, we all learn about online safety, like not sharing personal information and being careful with what we see and do. These rules help us enjoy the benefits of technology and also keep a healthy and safe family environment.

Danny: I don't think that's a good idea. Yours is too heavy to carry around.

Mum: How about buying an electronic one? You can carry it anywhere. And there are word games and quizzes in it.

Danny: Sounds great! That could be fun and help me practise.

Welcome to our city planning museum! Our city has a long history. In the past, it was a small town with narrow streets and a busy seafood market. People lived simple lives. There were no tall buildings or railway stations. Now, our city has changed a lot. We have many high-rise

buildings, big supermarkets and a high-speed railway station. But some things haven't changed. Our city is still famous for its beautiful beaches and delicious seafood. It's always been a great place for tourists to visit.

Lily: Hi Ram! I've heard you are from Bengaluru. What's it like?

Ram: Well, Bengaluru is a city that's always changing. Nowadays, it's called "the Silicon Valley of India" because there are lots of tech companies. But it was totally different many years ago.

Lily: Really? What was it like back then?

Ram: It was a city with a slow-paced life. People made a living mainly from farming or running small businesses.

Lily: So, how did it start changing?

Ram: In the 1970s, Bengaluru began to grow in the IT field. Many tech companies came, and later the city got well-known for computers and technology.

Lily: Wow! That's a big change!

Ram: Yeah, and now it's a busy international city with tons of people and buildings. But there are problems. You know, we've lost a lot of forests, farmland and lakes, especially since the 1990s. Now people are trying to make the city green again, like planting more trees and looking after the lakes.

Lily: That sounds like a great thing to do.

Chongqing: then and now

Have you been to Chongqing? It is known as the "mountain city of China", because the city is built on mountains. But today, it is also known as the "bridge capital of China". Why? To answer the question, we need to learn about the past and present of the city.

Many years ago, Chongqing looked very different. High mountains and wide rivers made the city difficult to get to. And in the city people had to climb mountains or use boats to get from one place to another. It was a hard life.

In 1958, things began to change. The government decided to build a long bridge across the Jialing River. This bridge helped connect the areas on either side. The number of bridges grew fast. Now Chongqing has more than 14,000 bridges and deep tunnels.

Today, Chongqing has become a modern international city. Bus stops, underground stations, highways and bridges are everywhere. Tourists from all over the world come to Chongqing and enjoy their stay here.

Mark: Hey, have you heard about the team-building activity we're doing tomorrow?

Lily: No, what is it?

Mark: We're going to do an escape room challenge at Breakout Rooms Downtown. It's going to be so much fun!

Lily: Escape room? What's that?

Mark: A group of people are locked in a room. They have to solve a series of puzzles to unlock the door and escape within a set time. We'll have to work together and think creatively to solve the puzzles.

Lily: That sounds cool! Do you think we'll be able to escape?

Mark: I don't know. We need to try our best to work together! I can't wait to see how we play the game.

A4

Interviewer: Hi, Eric, welcome to our programme. We've been following the season finals, and it's clear that teamwork is key in any big game. Can you share your thoughts on this?

Eric: Sure. Every season final shows how important it is for everyone to work together. Take Red Team for example — they took a 29–15 lead early in the game because everyone helped. It's never about one person doing it all.

Interviewer: How do you build your team? What makes a great team?

Eric: Great question. It's not just about having good players. It's about understanding how their strengths fit together and making them support each other to work as one.

Interviewer: Can you give an example?

Eric: Certainly. Look at Red Team. All the members understand teamwork and share both wins and losses. Each player knows their role and how it helps the team's goals.

Host: Hello, everyone! Welcome to our programme. I'm Luna. Today we're speaking to Jack, the lead singer of Lucky Island. Hello, Jack!

Jack: Hi, Luna!

Host: Jack, congratulations! That was a great performance you gave last week. How did you get so good?

Jack: Thank you. Well, you know we've played together for fifteen years.

Host: What has helped you stay together for so long?

Jack: A shared passion for music, of course. Also, after such a long time we all understand each other very well. Jimmy controls the rhythm. He just needs to look at Fran and Fran will know he needs to speed up or slow down.

Host: As the lead singer, are you pulling all the members together?

Jack: Well, you could say that. But each role is important in the band and we depend on each other. Before we have a performance, we spend a month or two practising together. So on stage it's like we are one.

Host: Do you also spend time together off-stage?

Jack: A lot! And such togetherness makes us feel like a family. Yes, we have some problems but we care for each other.

Lily: Mark, I've been reading about the clothes of the future. They have new designs and use new technology.

Mark: Is there anything special?

Lily: Yeah. I've found that scientists are working on Eco-clothes.

Mark: Eco-clothes?

Lily: Yeah. They're the clothes that are good for the environment.

Mark: How will they work?

Lily: Well, the clothes will collect energy from the sun and then turn it into electricity.

Mark: Interesting. So, we'll probably use clothes to power our phones in the future, right?

Lily: Yes! I've also read that scientists are working on Smart clothes.

Mark: Wow! Why are they smart?

Lily: Well, they will keep our apparent temperature the same in any kind of weather.

Mark: Really? That's amazing.

Lily: They will also help reduce the pain after exercise and keep us from getting ill.

Mark: Wow, that's fantastic. You know, I've heard the idea of Light clothes. They will change colour. But they seem useless to me.

Lily: Clothes that will change colour? I think they're pretty cool. We can wear the same clothes for different times and places, so we don't have to buy so many clothes and can save money.

Green Valley was a small town with old factories and a polluted river. The playground in the town was broken and dirty, so few children played there. People had to buy things like food and clothes in River City.

People decided to make a change. First, they cleaned the river and planted a lot of trees. Then they built a new park with a playground, picnic tables and a bicycle path. Now, the river is clean, and birds sing in the trees. The park has become the heart of the town.

Best of all, people no longer need to go to River City for shopping. A supermarket opened near the park, and online shopping is developing. Mrs Lee, a supermarket worker, says happily,

“Before, people went far away to buy food. Now they shop here or online. It’s much more convenient.”

Last weekend, hundreds of visitors came to Green Valley! Families had picnics in the park, children played on the slides, and tourists took photos of the flowers.

Mark: Hi Lily! Have you read the news? Scientists say by 2060, every home will have a robot helper!

Lily: 2060? Are you sure about that? That’s only about 30 years away! What can these robots actually do? Can they cook meals?

Mark: Yes. They’ll deal with daily chores and remind us to drink water or take medicine. They may even help children learn new languages!

Lily: Cool! But will robots take the place of teachers?

Mark: No way! Teachers understand students’ feelings and often encourage them. They connect with students. There’s no chance of robots taking the place of teachers.

Lily: You’re right. Oh, what if robots break down? Can they fix themselves?

Mark: Probably not. Humans will still need to check and fix them.

Lily: That’s a bit disappointing. Above all, with robot helpers, we’ll have more time for interesting things such as developing our hobbies!

Mark: Exactly! I’m really looking forward to the future life with robot helpers.

Lily: Me too!

A. Facts about water

Numbers about water

- Water on Earth — sea water: 97%; fresh water: 3%; fresh water for human use: 1%
- Fresh water for humans to drink: 0.3%
- Use of fresh water — farm: 69%; factory: 19%; home: 12%
- People lacking safe drinking water: one in four; about 2 billion in total
- Water we need to take in every day: 2.7 to 3.7 litres
- Water lost from a dripping tap in a day (1 drip a second): 4.32 litres a day

B. Water in everyday life

Topics about water

- Bad things that happen when we waste water: wasting energy; making water less safe for drinking
- Useful tips about saving water: Take shorter showers./Water plants with grey water./Use energy-saving washing machines./Run the dishwasher only when it is full.
- Indirect water footprint: It takes lots of water to make things like shirts and shoes, though we don't see water in them. Saving these things also means saving water.
- Showing agreement: Sounds great!/Sure!/I totally agree./You can say that again.
- Showing disagreement: I don't think so./I disagree./I'm afraid that's not true./I see your point, but ...

C. The land of little water

- Put the following sentences in the correct order:
 - (4) Her family prepares to leave the *toba*.
 - (3) She washes her hair.
 - (2) She fills the pot with water, using a piece of cloth to keep the mud out.
 - (1) She gets up early and goes to the *toba*.
- What impressed me most in the story: When Shabanu and her sister were small, their mother used to bathe them with just one cup of water.

D. Water protection

- Small things we can do to protect water: Turn off the tap while soaping our hands, use rainwater for plants, and tell the teacher when we find something wrong with a tap.
- How to encourage others to protect water: We can put up signs, start river clean-up groups, or show videos to raise awareness of water protection.

E. Our water use in a day

- My finding: I used as much as 100 litres of water in a day. If I were Shabanu, and if I could carry four 5-litre bottles of water at a time, it would take me five round trips to and from the *toba* to get this much water every day.
- My feeling: I wouldn't use water in such a wasteful way if I had to fetch it from a place far away every day.

Changes in my community

My community then: small, old, dirty

My community now: tall buildings, clean parks

My community in the future: greener, smarter

Reasons for the changes: support each other, solve problems together, technology

My community has changed a lot in the past years. It used to be a small one with old buildings and dirty roads. Now, it has grown into a large community with modern buildings and clean parks. Our life is more comfortable and convenient. In the future, I hope my community will become greener and smarter. It has these great changes because technology develops fast and we always support each other and solve problems together. I'm proud of how far we've come and excited about what's to come.
