**Topic: What is your
school day like?**

I study at an online school. Every day, I stay at home and connect to classes via (通过) the internet. Usually, I have classes in the morning. After lunch, I do homework and class projects. Sometimes, I meet my friends at after-school clubs. I do subjects like Maths and History, but I can plan my time freely. I enjoy this way of learning very much.

I'm from Rio de Janeiro (里约热内卢), Brazil (巴西). Every morning, I go to school by bus. My favourite subject is History. 😊

Every Thursday at school, we do two hours of sports. 🏀🏈🏉 There are several computer rooms in my school. We use them a lot for lessons and tests. 💻 We also go on day trips to museums. I like these trips most. After school, I go to street-dancing lessons outside the school. 🕺

Yes! I'm in the UK. In my school, we have Pancake Day every February or March. It's really fun. We always make pancakes with sugar and lemon juice in the school kitchen together. We don't add much sugar to the pancakes, but there's a lot of lemon juice on them. Yummy!

Today, Mum and I went to the zoo! We got up early and arrived (到达) at the zoo at 8 a.m.

First, we visited the petting zoo. There are many farm animals there. We petted the sheep and rabbits. We also fed them grass. It was a lot of fun.

Next, we visited wild animal zones (区). I saw signs with the words "No

food!"The first wild animal we saw was a giraffe. What a long neck she has! She was eating leaves from the top of a tree. We walked around and saw a tiger. He was taking a nap. Mum told me that tigers sleep during the day and hunt (捕猎) at night. How amazing!

Elephants are the largest land animals in the world. They are very smart animals with many amazing skills.

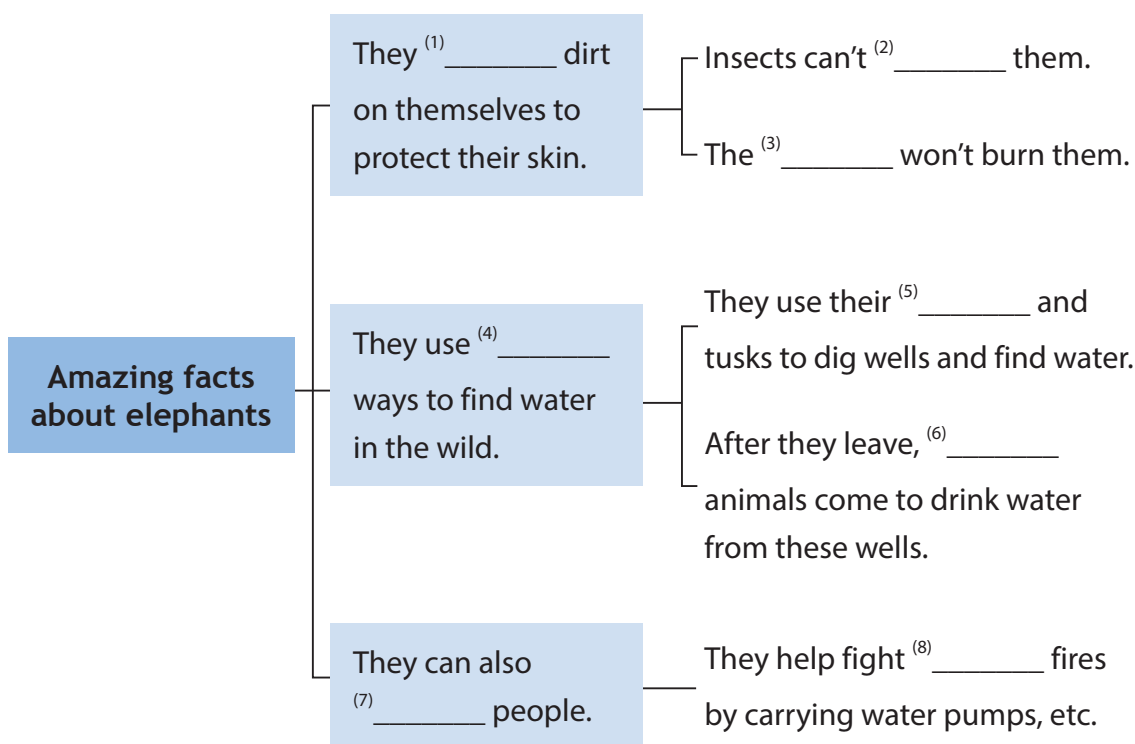

Elephants know how to protect (保护) themselves. If you visit a safari park, you may see elephants throw dirt on themselves. They do this because dirt protects their skin. Insects (昆虫) can't bite them and the sun won't burn them.

Elephants have smart ways to find water in the wild. During the dry season, elephants use their feet and tusks to dig wells (井) and find water to drink, bathe and play in. After elephants leave, smaller animals run to these wells for water.

Elephants can also help people. In Indonesia, elephants are trained to help fight forest fires. They carry water pumps (泵) into the forest and help put out fires.
